

ESSENTIAL SERVICES DESIGNATION

Re: Extermination and Pest Control Services

The individual/technician carrying this letter works for and represents a professional Exterminator/Pest Control Company who is a member of the Florida Pest Management Association, and is transiting, responding to, or providing a critical service. His/her work is designated essential and the company continues to operate under an "Essential Services" designation by the Federal Government (Department of Homeland Security Memorandum on Identification of Essential Critical Infrastructure Workers During COVID-19 Response), and the State of Florida Executive Order 20-91.

While these services are important to homes and living units, they are essential to public health in areas such as: nursing homes, hospitals, restaurants, grocery stores, state and local municipal buildings, agriculture, food production facilities and others. This designation allows us to continue to operate during Stay-at-Home orders.

If you have questions about this designation, please refer to the Florida Pest Management Association website at www/flpma.org.

We understand the severity of the COVID-19 outbreak. We are taking every precaution to limit personal contact while providing these essential services and we will follow any new regulations put forth by the Federal Government or our State and Local authorities.

Please allow this individual to proceed unencumbered for the duration of this event.
