

Safety Data Sheet according to OSHA-GHS (29 CFR part 1910.1200 HCS 2012)

PRODUCT NAME

POTASSIUM SULFATE

Product Code:

005/04-US

Date of issue:

November 2012

Supersedes: July 2008

1. PRODUCT AND COMPANY IDENTIFICATION

Product identifier
Potassium sulfate
Sulphate of potash
QROP™ SOP
Ultrasol™ SOP
Ultrasol™ SOP 52
Ultrasol™ SOP-WS

Recommended uses:

Industrial use of the product for formulation of preparations or mixtures of fertilizers and other agricultural chemicals.
Consumer end-use of fertilizers, plant protection products.

Restrictions on uses:

None identified

Supplier

SQM North America
2727 Paces Ferry Rd, Bldg Two, Suite 1425
Atlanta, GA 30339

Company Telephone/Fax

(770) 916 9400 / (770) 916 9404

Emergency Telephone Number

(800) 424 9300 (CHEMTREC)

2. HAZARDS IDENTIFICATION

Classification of the substance or mixture

Classification of the chemical in accordance with 29CFR §1910.1200

Not classified as hazardous.

Label elements

Hazard pictograms None applicable

Signal word None applicable

Hazard Statements None applicable

Precautionary Statements None applicable

Other hazards

None

3. COMPOSITION/INFORMATION ON INGREDIENTS

Substance name	CAS No	EC No	Concentration
Potassium sulfate	7778-80-5	231-915-5	> 94%

4. FIRST AID MEASURES

Description of first aid measures

General information

In case of persisting adverse effects consult a physician.

Never give anything by mouth to an unconscious person or a person with cramps.

In case of inhalation

Remove victim to fresh air and keep at rest in a position comfortable for breathing.

Call a POISON CENTER or doctor/physician if you feel unwell.

In case of skin contact

Rinse skin with water/shower. If skin irritation occurs: Get medical advice/attention.

In case of eye contact

Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.

If eye irritation occurs: Get medical advice/attention.

In case of ingestion

Rinse mouth and drink plenty of water.

Call a POISON CENTER or doctor/physician if you feel unwell.

Safety Data Sheet according to OSHA-GHS (29 CFR part 1910.1200 HCS 2012)

PRODUCT NAME

POTASSIUM SULFATE

Product Code:

005/04-US

Date of issue:

November 2012

Supersedes: July 2008

Most important symptoms and effects, both acute and delayed

The following symptoms may occur:

In case of inhalation May be irritant to the respiratory tract
In case of skin contact May cause skin irritation
In case of eye contact May cause eye irritation
In case of ingestion Ingestion of large amounts may cause: Gastrointestinal disturbances

Indication of any immediate medical attention and special treatment needed

Treat symptomatically.

5. FIRE FIGHTING MEASURES

Extinguishing media

Suitable extinguishing media: Use any suitable mean for extinguishing surrounding fire.

Unsuitable material: None, but attention should be paid to compatibility with chemicals surrounding.

Specific hazards arising from the chemical

Thermal decomposition can lead to the escape of toxic/irritating gases and vapours.

Thermal decomposition products: Sulfur oxides fumes by extreme heating.

Protective equipment and precautions for firefighters

Wear a self-contained breathing apparatus and chemical protective clothing.

6. ACCIDENTAL RELEASE MEASURES

Personal precautions

Provide adequate ventilation. Wear personal protection equipment.

Environmental precautions

Do not allow to enter into surface water or drains. Ensure waste is collected and contained.

Methods for containment and cleaning up

Take up mechanically, placing in appropriate containers for disposal or recovery.

Unsuitable material for taking up: None specified

Other information

None

7. HANDLING AND STORAGE

Precautions for Safe Handling

Avoid generation of dust. Provide adequate ventilation. Wear personal protective equipment, when required.

Do not breathe dust. Wash hands before breaks and at the end of workday.

Do not eat, drink or smoke when using this product.

Keep away from food, drink and animal feeding stuff. Good hygiene practices and housekeeping measures.

Conditions for safe storage, including any incompatibilities

Reseal carefully any opened container and set upright to avoid leakages.

Keep/store only in original container. Keep the product tightly closed in a dry, in well-ventilated and cool place.

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Exposure Guidelines

Occupational exposure limits

Potassium sulfate:

OSHA	PEL	Not Established	
	STEL/ceiling	Not Established	
ACGIH	TWA	Not Established	(2012 TLVs® and BEIs®)
	STEL/ceiling	Not Established	(2012 TLVs® and BEIs®)

Safety Data Sheet according to OSHA-GHS (29 CFR part 1910.1200 HCS 2012)

PRODUCT NAME

POTASSIUM SULFATE

Product Code:

005/04-US

Date of issue:

November 2012

Supersedes: July 2008

Incompatible materials

None identified.

Hazardous decomposition products

Sulfur oxides fumes by extreme heating

11. TOXICOLOGICAL INFORMATION

Likely routes of exposure (inhalation, ingestion, skin and eye contact)

Eye contact, skin contact and inhalation.

Exposure by ingestion is not expected to occur through normal industrial or professional use.

Symptoms related to the physical, chemical and toxicological characteristics

May be irritant to the skin, eyes and the respiratory tract. Ingestion of large amounts may cause gastrointestinal disturbances.

Information on toxicological effects from short and long term exposure

Acute toxicity

Acute oral toxicity	LD50:	> 2000 mg/kg bw	Species:	Method:
			Rat.	OECD Guideline 423

Data obtained by analogy conclusion

Acute dermal toxicity	LD50:	> 2000 mg/kg bw	Species:	Method:
			Rat.	OECD Guideline 402/EU B.3

Assessment / classification: Based on available data, the classification criteria are not met

Irritant and corrosive effects

Primary irritation to the skin

Result:

Species:

EU Method B.46 (*In vitro* skin irritation)

Not irritating

Not applicable

Irritation to eyes

Result:

Species:

OECD guideline 405

Not irritating

Rabbit (New Zealand White)

Assessment / classification:

Based on available data, the classification criteria are not met

Respiratory or skin sensitisation

Skin sensitization

Method:

Result:

OECD Guideline 429

Not sensitising

Data obtained by analogy conclusion

Respiratory sensitisation

No information available.

Assessment / classification:

Based on available data, the classification criteria are not met

Germ cell mutagenicity / Genotoxicity

In-vitro genotoxicity

Method:

Result:

Gene-mutations microorganisms

OECD Guideline 471

negative

Gene-mutations mammalian cells

OECD Guideline 476

negative

Data obtained by analogy conclusion

Chromosome aberrat. mammalian cells

OECD Guideline 473

negative

Assessment / classification:

Based on available data, the classification criteria are not met

Reproductive toxicity

Adverse effects on reproduction

OECD guideline 422

NOAEL:

≥ 1500 mg/kg bw/day

No effects were found on reproduction parameters, neither embryotoxic or developmental effects at highest dose tested. In 90-d and one generation studies with chemically related substances, no effects on fertility were observed.

Developmental toxicity / teratogenicity

OECD guideline 422

NOAEL(development):

≥ 1500 mg/kg bw/day

No effects were found on reproduction parameters, neither embryotoxic or developmental effects at highest dose tested. In 90-d and one generation studies with chemically related substances, no effects were observed.

Assessment / classification:

Based on available data, the classification criteria are not met

Specific target organ toxicity (single exposure)

Practical experience / human evidence

No relevant effects have been described after single exposure to the substance.

Assessment / classification:

Based on available data, the classification criteria are not met

Safety Data Sheet according to OSHA-GHS (29 CFR part 1910.1200 HCS 2012)

PRODUCT NAME

POTASSIUM SULFATE

Product Code:

005/04-US

Date of issue:

November 2012

Supersedes: July 2008

Specific target organ toxicity (repeated exposure)

OECD guideline 422

NOAEL(C): > 1500 mg/kg bw/day

No effects were observed at highest dose tested.

Equivalent or similar to OECD guideline 453

NOAEL(C): 256 mg/kg bw/day (male, rat)

Data obtained by analogy conclusion (ammonium sulphate)

Absolute spleen weights were decreased and relative liver weights were increased in high dose males.

Assessment / classification:

Based on available data, the classification criteria are not met

Aspiration hazard

Physicochemical and toxicological data does not indicate a potential aspiration hazard.

Assessment / classification:

Based on available data, the classification criteria are not met

Carcinogenicity

There is no evidence of carcinogenicity or genotoxicity with potassium sulphate. No evidence of a carcinogenic potential was observed in a study equivalent or similar to OECD guideline 453 with ammonium sulphate.

International Agency for Research on Cancer (IARC)

Not listed

National Toxicology Program (NTP)

Not listed

29 CFR part 1910, subpart Z

Not listed

Assessment / classification:

Based on available data, the classification criteria are not met

12. ECOLOGICAL INFORMATION

Ecotoxicity

Aquatic toxicity

96-h LC50 680 mg/L

Fish (*Pimephales promelas*)

(US EPA Guideline EPA/600/4-90/027)

48-h EC50 720 mg/L

Daphnia magna (Big water flea).

(US EPA Guideline EPA/600/4-90/027)

18-d EC50 > 100 mg/L

Chlorella vulgaris

(literature information)

3-h EC50 > 100 mg/L

Aquatic micro-organisms

Data obtained by analogy conclusion

Conclusion obtained by structural analysis and intended use

Assessment / classification

Based on available data, the classification criteria are not met

Persistence and degradability

In aqueous solution, potassium sulphate is completely dissociated into the potassium ion (K^+) and the sulfate anion (SO_4^{2-}).

Hydrolysis of potassium sulfate does not occur.

Due to the inorganic nature of the substance standard testing systems are not applicable.

Bioaccumulative potential

Potassium sulfate completely dissociate in water forming potassium ions and sulfate anions. Potassium sulfate has a low potential for bioaccumulation based on physicochemical properties.

Mobility in soil

Based on the high water solubility and the ionic nature, potassium sulphate is not expected to adsorb, however, due to ion exchange process, sulfates can be retained in soil, both by incorporation into organic matter (e. g. as sulfate esters of humic acids) and adsorbed to soil particles such as hydrous iron and aluminum sesquioxides.

Other adverse effects

None specified.

13. DISPOSAL CONSIDERATIONS

Disposal should be in accordance with applicable federal and state laws.

It is the responsibility of the waste generator to determine the toxicity and physical properties of the material generated to determine the proper waste identification and disposal method in compliance with applicable regulations.

Potassium sulfate is not listed as a dangerous waste in Resource Conservation and Recovery Act (RCRA) 40 CFR 261.

Safety Data Sheet according to OSHA-GHS (29 CFR part 1910.1200 HCS 2012)

14. TRANSPORTATION INFORMATION

US DOT (ground)

UN-No.	Non dangerous good
UN Proper Shipping Name	Not applicable
Hazard class	Not applicable
Packing group	Not applicable
Marine pollutant	No
Hazard label	Not applicable

International Maritime Organization (IMDG Code)

UN-No.	Non dangerous good
UN Proper Shipping Name	Not applicable
Hazard class	Not applicable
Packing group	Not applicable
Marine pollutant	No
Hazard label	Not applicable

International Civil Aviation Organization (ICAO) and International Air Transport Association (IATA)

UN-No.	Non dangerous good
UN Proper Shipping Name	Not applicable
Hazard class	Not applicable
Packing group	Not applicable
Hazard label	Not applicable

Special handling procedure

None

Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code

Not applicable

Other special precautions

None

15. REGULATORY INFORMATION

US Federal

SARA Title III Rules

Section 311/312 Hazard Classes

Acute Health Hazard	No
Chronic Health Hazard	No
Fire Hazard	No
Release of Pressure	No
Reactive Hazard	No

Section 313 Toxic Chemicals

No components listed

Section 302 Extremely Hazardous Substances (EHS)/CERCLA Hazardous Substances

Safety Data Sheet according to OSHA-GHS (29 CFR part 1910.1200 HCS 2012)

PRODUCT NAME

POTASSIUM SULFATE

Product Code:

005/04-US

Date of issue:

November 2012

Supersedes: July 2008

Canada

Ingredient Disclosure List:

No components listed

WHMIS Classification:

Not classified

This product has been classified according to the hazard criteria of the Controlled Products Regulations (CPR) and the SDS contains all the information required by the CPR.

European Union

Classification according to Regulation (EC) No 1272/2008 [EU-GHS/CLP]

Not classified as hazardous.

16. OTHER INFORMATION

This SDS complies with 29 CFR part 1910 subpart Z (2012), Canada Controlled Products Regulations (2010) and ANSI Standard Z400.1-2004

The information above is believed to be accurate and represents the best information currently available to us. However, we make no warranty of merchantability or any other warranty, express or implied, with respect to such information, and we assume no liability resulting from its use. Users should make their own investigations to determine the suitability of the information for their particular purposes. In no event shall SQM be liable for any claims, losses, or damages of any third party or for lost profits or any special, indirect, incidental, consequential or exemplary damages, howsoever arising, even if SQM has been advised of the possibility of such damages.

Indication of changes

All sections were reviewed and modified to comply with 29CFR part 1910 subpart Z (2012).
