

WELD AREA

IT IS A VIOLATION OF FEDERAL LAW TO USE THIS PRODUCT IN A MANNER INCONSISTENT WITH ITS LABELING.

ANTS: Concentrate treatment at insect activity sites. Ants are attracted to the bait and it is carried back to the nest to kill the queen and destroy the colony. Baits are packaged in a child-resistant container.

1. Break bait stations apart from the plastic frame. To stick on vertical surfaces, remove peel and stick backing on reverse side of bait station.

2. For thorough ant control, use as many bait stations as necessary (normally 3 to 4 stations for an average size room or 6 to 8 stations for a heavy infestation).

3. For best results, also place bait stations along walls, baseboards, in corners, under sinks, in cabinets, pantries, near plumbing, electrical lines, potted plants.

DIRECTIONS FOR USE

APPLICTIONS IN FOOD HANDLING ESTABLISHMENTS: Food handling establishments include places other than private residences in which food is held, processed, prepared or served.

FOOD AREAS: Includes areas for receiving, storage, packing, canning, bottling, wrapping, boxing, preparing, edible waste storage and enclosed processing systems (mills, dairies, edible oils, syrups). Avoid contamination of food. Use as instructed above.

AIRCRAFT CABINS: Place bait stations in suspected and active ant areas. Place bait stations in areas between elements of construction. Use up to 6 bait stations per galley and up to 3 bait stations per rest room. In cargo holds, use 6 to 12 bait stations per 100 ft². **DO NOT** use bait stations in cockpit area.

GUSSET AREA

GUSSET AREA

Advance® 360A Dual Choice Ant Bait Stations

ACTIVE INGREDIENT: Abamectin B₁ 0.011%

OTHER INGREDIENTS: 99.989%

TOTAL: 100.000%
