FIRST AID

If in eyes • Rinse with large amounts of water for at least 15 minutes. Call a poison control center or doctor for further treatment advice.

Do not apply product while white foaming occurs. Do not apply this product that is that is flowering. Only apply after all fall pulses have fallen off.

In case of large scale spill of this product, call

• CHEMISTRY 1-800-643-4646

• Registered distributor 1-800-832-HELP (4357)

In case of medical emergency regarding this product, call:

• Your local poison control center (hospital)

This product is a water-soluble granule containing the nonphotodegradable active ingredient dinotefuran. Apply indoors and/or outdoors via crank and crevice, spot or surface application for the listed pests and uses.

Agricultural Setting

Advice to the proper concentration according to actual pest problem. Follow the mixing direction found in the SPRAY CHART (see 1 gallon of finished dilution per 100 square feet. Refer to INDOOR/OUTDOOR APPLICATIONS chart for concentrations and rates and pests.

Product Information

The information below is intended to help you determine the best use and placement of this product. The product is not intended for direct contact during foliar applications, or contact with residues on plant surfaces after foliar applications.

Indoor and Outdoor Applications

Analysis of the proper concentration according to actual pest problem. Follow the mixing direction found in the SPRAY CHART (see 1 gallon of finished dilution per 100 square feet. Refer to INDOOR/OUTDOOR APPLICATIONS chart for concentrations and rates and pests.

The use of this chemical in areas where soils are permeable, particularly where the water table is shallow, may result in groundwater contamination.

When applying to upholstered furniture, treat under cushions and all surfaces. Do not contaminate marine or freshwater drinking water.

Use Restrictions

Indoor Applications

DO NOT apply product where food is stored, food/feed or food/feed contact surfaces. Remove or cover food/feed, dishes, utensils, food processing equipment and food preparation surfaces in the treatment area or wash them before use. Apply as a crack and crevice application.

Physical and Chemical Hazards

DO NOT apply water-based spray to this product. It is a violation of federal law to use this product in a manner inconsistent with the labeling.

Food/Feed Handling Establishments

Food/feed-handling establishments may place other private indoor residences in which food is produced, prepared or served. Contact your local Pesticide Information Center at: www.npic.orst.edu or directly to EPA at: beekill@epa.gov

Indoor/Outdoor Applications

DO NOT apply this product when water is used too severely. Use of this chemical in areas where soils are permeable, particularly where the water table is shallow, may result in groundwater contamination.

Environmental Hazards

Do not use this product near birdbaths, bird feeders or feed containers. This product is toxic to aquatic invertebrates. DO NOT apply to or near storm drains, or other surface water bodies or irrigation systems. DO NOT apply when water conditions have drying tended and spray drift could contaminate surface waters. Use of this product is conditional under certain conditions as a result of label use. Use of this chemical in areas where soils are permeable, particularly where the water table is shallow, may result in groundwater contamination.

DO NOT apply this product where food is stored, food/feed or food/feed contact surfaces. Remove or cover food/feed, dishes, utensils, food processing equipment and food preparation surfaces in the treatment area or wash them before use. Apply as a crack and crevice application.

DO NOT apply product while white foaming occurs. Do not apply this product that is that is flowering. Only apply after all fall pulses have fallen off.
