CONDITIONS OF SALE Seller warrants that this product consists of the ingredients specified and is reasonably fit for the purpose stated on this label when used in accordance with directions under normal conditions of use. No one, other than the officer or Seller, is authorized to make any warranty, guarantee, or directions concerning this product. Because the time, place, rate of application and other conditions of use are beyond Seller's control Seller's liability from handling, storage and use of this product is limited to replacement of product or refund of purchase price. Buyer assumes all responsibility for safety and use not in accordance with label instructions. The product names are registered trademarks of Bio Green® USA, Inc.

Directions For Use

SHAKE WELL!

The mixed product should be agitated prior to and during application.

Lawns: Apply Bio Green® 20+ at a minimum rate of 5 gallons per acre with a minimum of 100 gallons of water. Apply to all turf types at an interval of 4-8 weeks. Recommended annual rate of 60 lbs. N per acre.

Store in a cool dry place away from sunlight. Product will store for 2 years in normal warehouse conditions.

Compatibility: These concentrated materials are compatible with most fertilizers and chemicals but should not be mixed directly with other chemicals. Conduct a jar test as needed to ensure compatibility before tank mixing. Mix in spray tanks with water and proper agitation. Apply in accordance with best management practices (BMP's) established by your Cooperative Extension Service. Observe any State or Local fertilizer application regulations.

Caution: This product contains the secondary micronutrient iron. Iron may stain concrete, wood and other pervious and impervious surfaces. Apply only to turf, plants, and soil. If plants are flowering, apply to base of the plant to avoid staining of blooms.

Keep out of reach of children. If product comes in contact with skin or eyes flush with water immediately.
