SDS \# : 6593-A

This MSDS has been prepared to meet U.S. OSHA Hazard Communication Standard 29 CFR 1910.1200 and Canada's Workplace Hazardous Materials Information System (WHMIS) requirements.

## 1. PRODUCT AND COMPANY IDENTIFICATION

| Product name | CB-123 Insecticide |
| :---: | :---: |
| Formula code | 6593 |
| Active Ingredient(s) | Piperonyl Butoxide, Pyrethrins, n-Octyl bicycloheptene dicarboximide |
| Synonyms | Pyrethrins and Pyrethroids, Pyrethrum Butylcarbityl(6-propylpiperonyl) ether, 1,3-Benzodioxole, 5-[[2-(2-butoxyethoxy)ethoxy]methyl]-6-propyl-; N-(2-ethylhexyl)-5-norbornene-2,3-dicarboximide; N -(2-ethylhexyl)-8,9,10-trinorborn-5-ene-2,3-dicarboximide |
| Recommended use | Insecticide |
| Manufacturer | $\underline{\text { Emergency telephone number }}$ |
| FMC Corporation |  |
| Agricultural Products Group | For leak, fire, spill or accident emergencies, call: |
| 1735 Market Street | (800) 424-9300 (CHEMTREC - U.S.A.) |
| Philadelphia, PA 19103 | (703) 527-3887 (CHEMTREC - Collect - All Other Countries), |
| General Information: | Medical Emergencies: |
| Phone: (215) 299-6000 | (800) 331-3148 (U.S.A. \& Canada) |
| E-Mail: msdsinfo@fmc.com | (651) 632-6793 (All Other Countries - Collect) |

## 2. Hazards identification

Appearance

## Physical State

## Odor

## Physical or Chemical Hazards

## Flammable properties

## Potential health effects

Acute effects
$\quad$ Eyes
$\quad$ Skin
Inhalation

$\quad$ Ingestion
Chronic effects
Aggravated Medical Conditions

Aerosolized liquid, light yellow
Liquid aerosol
No information available

Flammable liquid. Contents under pressure.

May cause slight irritation.
Substance may cause slight skin irritation.
Harmful by inhalation. Intentional misuse by deliberately concentrating and inhaling contents may be harmful or fatal. May cause central nervous system depression with nausea, headache, dizziness, vomiting, and incoordination. May cause cardiac effects.
May be harmful if swallowed. Ingestion may cause gastrointestinal irritation, nausea, vomiting and diarrhea. May cause additional affects as listed under "Inhalation".

Liver disorders, Kidney disorders, Cardiovascular.

## 3. Composition/information on ingredients

## Hazardous ingredients

| Chemical Name | CAS-No | Weight \% |
| :---: | :---: | :---: |
| 1,1-Difluoroethane | $75-37-6$ | $60-70$ |
| Isopropanol | $67-63-0$ | $10-20$ |
| Petroleum distillates, hydrotreated light | $64742-47-8$ | $10-20$ |
| n-Octyl bicycloheptene dicarboximide | $113-48-4$ | 3 |
| Piperonyl butoxide | $51-03-6$ | 2 |
| Pyrethrin | $8003-34-7$ | 1 |

## 4. First aid measures

Eye contact

Skin contact

Inhalation

Ingestion Immediately call a poison control center or doctor. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give any liquid to the person. Do not induce vomiting or give anything by mouth to an unconscious person.

Notes to physician This product is a pyrethroid. If large amounts have been ingested, the stomach and intestines should be evacuated. Treatment is symptomatic and supportive. Digestible fats, oils, or alcohol may increase absorption and so should be avoided.

## 5. Fire-fighting measures

## Flammable properties

Flash Point Special hazards arising from the substance or mixture

Sensitivity to Mechanical Impact
Sensitivity to Static Discharge

## Extinguishing media

Suitable extinguishing media

## Advice for fire-fighters

Protective equipment and precautions Isolate fire area. Evaluate downwind. In the event of fire, wear self contained breathing apparatus. for firefighters

## Occupational exposure controls

## Engineering measures

Apply technical measures to comply with the occupational exposure limits. When working in confined spaces (tanks, containers, etc.), ensure that there is a supply of air suitable for breathing and wear the recommended equipment.

## Personal protective equipment

| General Information | If the product is used in mixtures, it is recommended that you contact the appropriate protective <br> equipment suppliers. These recommendations apply to the product as supplied. |
| :--- | :--- |
| Respiratory protection | For dust, splash, mist or spray exposures wear a filtering mask. |
| Eye/face protection | For dust, splash, mist or spray exposure, wear chemical protective goggles or a face-shield |
| Skin and body protection | Wear long-sleeved shirt, long pants, socks, shoes, and gloves. |
| Hand protection | Protective gloves |

## Hygiene measures

Clean water should be available for washing in case of eye or skin contamination. Wash skin prior to eating, drinking, chewing gum or using tobacco. Shower or bathe at the end of working. Remove and wash contaminated clothing before re-use. Launder work clothing separately from regular household laundry.

Mild Irritant
Mild Irritant
May be harmful if swallowed. Ingestion may cause gastrointestinal irritation, nausea, vomiting and diarrhea. May cause additional affects as listed under "Inhalation".
Harmful by inhalation. Intentional misuse by deliberately concentrating and inhaling contents may be harmful or fatal. May cause central nervous system depression with nausea, headache, dizziness, vomiting, and incoordination. Inhalation of high concentrations of 1,1-difluoroethane is harmful and may cause heart irregularities, unconcsciousness or death.

## Chronic Toxicity - Active Ingredient(s)

## Carcinogenicity

## Mutagenicity

## Developmental Toxicity

Target Organ Effects
Not recognized as carcinogenic by Research Agencies (IARC, NTP, OSHA, ACGIH).
Piperonyl butoxide ether may affect mammalian liver microsomal detoxification enzymes n-Octyl bicycloheptene dicarboximide was negative in a chromosome aberration assay

Isopropanol has been reported to cause teratogenicity in laboratory animals.
Mice fed 0.3 or $0.9 \%$ piperonyl butoxide in the diet for 20 days had increased liver weight and other signs of liver toxicity. Male rats given up to $2.4 \%$ of piperonyl butoxide in the diet for up to 12 weeks had clinical and histologic signs of liver damage; the highest dose group showed preneoplastic changes, including enlargement of hepatocyte nuclei and multinucleated cells. Kidney damage was also seen.

## 13. Disposal considerations

## Waste disposal methods

## Contaminated packaging

Improper disposal of excess pesticide, spray mixture, or rinsate is prohibited. If these wastes cannot be disposed of by use according to label instructions, contact appropriate disposal authorities for guidance.

Containers must be disposed of in accordance with local, state and federal regulations. Refer to the product label for container disposal instructions.
