EXTINGUISHING MEDIA: Use water fog. If foam is used Foam Type should be alcohol.

SPECIAL FIRE FIGHTING PROCEDURES: Wear self-contained, positive pressure breathing apparatus and full firefighting protective clothing. Do not use full water jet, carbon dioxide or dry chemical. Fight fire from as far a distance away as possible. Use water spray to cool fire exposed containers. Do not inhale smoke or combustion gases. Do not use a solid stream of water as molten wax may be spread to ignition sources or carry fire to other flammable materials. Use water spray or foam to control fire. Collect contaminated fire-fighting water separately. Prevent fire-fighting runoff from reaching sewers or bodies of water as it will contain chemicals which are hazardous to the environment.

UNUSUAL FIRE AND EXPLOSION HAZARDS: N/D

HAZARDOUS DECOMPOSITION PRODUCTS: N/D

SECTION 6: ACCIDENTAL RELEASE MEASURES

STEPS TO BE TAKEN IN CASE OF A SPILL: Wear prescribed protective equipment. Sweep up or shovel broken controlled release devices or contaminated product into disposal containers. Controlled release devices which have not broken can be recovered. Wear chemical resistant gloves during cleanup. If melted, allow to solidify first. Clean up spill location. Must not be released into sewers, drains or wells.

SECTION 7: HANDLING AND STORAGE

HANDLING AND STORAGE: Store in a cool, dry, well ventilated area in tightly closed original containers at a temperature not greater than 40C away from oxidizing agents, heat, sparks, flames and all other ignition sources. Open and handle containers with care. Open sealed bags only at time of use. Insure excessive moisture is not allowed to come in contact with the controlled release devices or moisture absorption may occur resulting in softening of the device. Do not eat, drink or smoke when handling. Wash hands before breaks and after work.
