CONTRAC®
RODENTICIDE READY-TO-USE PLACE PACS

KILLS RATS, MICE & MEADOW VOLES*

Kills Warfarin Resistant Norway Rats

Norway rats, roof rats, and house mice may consume a lethal dose in one night’s feeding with first dead rodents appearing four or five days after feeding begins.

*Not permitted for use against the following species in California: Cotton rat, Eastern harvest mouse, Golden mouse, Polynesian rat, Meadow vole, White-throated woodrat, Southern plains woodrat, and Mexican woodrat

ACTIVE INGREDIENT:
Bromadiolone (CAS #28772-56-7): 0.005%
OTHER INGREDIENTS†: 99.995%

†Contains Denatonium Benzoate

TOTAL: 100.000%

KEEP OUT OF REACH OF CHILDREN
CAUTION

See back panels for First Aid and additional precautionary statements, and Directions for Use.

NET WT:

KILLS RATS, MICE & MEADOW VOLES*

**Kills Warfarin Resistant Norway Rats**

Norway rats, roof rats, and house mice may consume a lethal dose in one night's feeding with first dead rodents appearing four or five days after feeding begins.

**ACTIVE INGREDIENT:**

Bromadiolone (CAS #28772-56-7): ........................................ 0.005%

**OTHER INGREDIENTS:**

†Contains Denatonium Benzoate TOTAL: 100.000%

**KEEP OUT OF REACH OF CHILDREN CAUTION**

See side panels for First Aid and additional precautionary statements, and Directions for Use.

**STORAGE AND DISPOSAL**

Do not contaminate water, food or feed by storage or disposal. Pesticide Storage: Store only in original container in a cool, dry place inaccessible to children and pets. Keep containers closed and away from other chemicals.

Pesticide Disposal: Wastes resulting from the use of this product may be placed in trash or delivered to an approved waste disposal facility.

Container Handling: Nonrefillable container. Do not reuse or refill this container. [Paper]: Dispose of empty container by placing in trash, at an approved waste disposal facility or by incineration. In most states, burning is not allowed.

**WARNING:** To the extent consistent with applicable law, seller makes no warranty, expressed or implied, concerning the use of this product other than indicated on the label. Buyer assumes all risk of use and/or handling of this material when such use and/or handling is contrary to label instructions.

**DIRECTIONS FOR USE**

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

**READ THIS LABEL:** Read this entire label and follow all use directions and use precautions. Use only for the sites, pests, and application methods described on this label.

**IMPORTANT:** Do not expose children, pets, or nontarget animals to rodenticides. To help prevent exposure:

1. Store unused product out of reach of children and pets.

2. Apply bait in locations out of reach of children, pets, domestic animals and nontarget wildlife, or in tamper-resistant bait stations. These stations must be resistant to destruction by dogs and by children under six years of age, and must be used in a manner that prevents such children from reaching into bait compartments and obtaining bait. If bait can be shaken from bait stations when they are filled, units must be secured or otherwise immobilized. Stronger bait stations are needed in areas open to hoofed livestock (sauceson, bears, or other potentially destructive animals, or in areas prone to desertion.

3. Dispose of product container and unused, spoiled, or unconsumed bait as specified on this label.

Bait stations are mandatory for outdoor, above-ground use. Tamper-resistant bait stations must be used wherever children, pets, nontarget mammals, or birds may have access to the bait placement location.

**USE RESTRICTIONS:** This product may only be used to control the following rodent pests in and around man-made structures: House mouse (Mus musculus), Norway rat (Rattus norvegicus), Roof rat (Rattus rattius), Cotton rat (Sigmodon hispidus), Eastern harvest mouse (Reithrodonomys humilis), Golden mouse (Ochrotomys nuttalli), Polynesian rat (Rattus exulans), Meadow vole (Microtus pennsylvanicus), White-throated woodrat (Neotoma albiga), Southern plains woodrat (Neotoma micropus), and Mexican woodrat (Neotoma mexicana). This product must be used in and within 100 feet of man-made structures constructed in a manner so as to be vulnerable to commensal rodent invasions and/or to harboring or attracting rodent infestations. Examples of such structures include homes and other permanent or temporary residences, food processing facilities, industrial and commercial buildings, trash receptacles, agricultural and public buildings, transport vehicles (ships, trains, aircraft), docks and port or terminal buildings and related structures around and associated with these sites. Fence and perimeter baiting, beyond 100 feet from a structure as defined above, is prohibited. This product must not be applied directly to food or feed crops.

Burrow baiting with Contrac Rodenticide Ready To Use Place Pacs is prohibited.

Do not place near or inside ventilation duct openings. Do not contaminate water, food, feedstuffs, or feed handling equipment, or milk or meat handling equipment or surfaces that come into direct contact with food. When used in USDA inspected facilities, this product must be applied in tamper-resistant bait stations. Do not broadcast bait. Do not use this product in sewers.

Do not sell this product in individual containers holding less than 16 pounds of bait.

**SELECTION OF TREATMENT AREAS:** Determine areas where rats, mice or meadow voles will most likely find and consume the bait. Generally, these areas are along walls, by gnawed openings, in corners and concealed places, between floors and walls, or in locations where rats, mice or meadow voles' or their signs have been seen. Protect bait from rain and snow. Remove as much alternative food as possible.

**APPLICATION DIRECTIONS:**

**RATS:** Apply 2 to 10 Place Pacs (at intervals of 15 to 30 feet) per placement in infested areas. Maintain an uninterrupted supply of fresh bait for 10 days or until signs of rat activity cease to appear.

**MICE AND MEADOW VOLES:** Place 1 Place Pac at 8 to 12 foot intervals in infested areas. Maintain an uninterrupted supply of fresh bait for 15 days or until signs of mice or meadow vole activity cease to appear.

**FOLLOW-UP:** Replace contaminated or spoiled bait immediately. Wear waterproof gloves, collect and dispose of all dead, exposed animals and leftover bait. To prevent reinfection, limit sources of rodent food, water, and harborage as much as possible. If reinfection does occur, repeat treatment. Where a continuous source of infestation is present, establish permanent bait stations and replenish as needed.

**USER SAFETY REQUIREMENTS**

Follow manufacturer’s instruction for cleaning/maintaining PPE. If no such instructions for washables, use detergent and hot water. Keep and wash PPE separately from other laundry. Users should remove clothing/PPE immediately if pesticide gets inside. Remove PPE immediately after handling this product. Wash the outside of gloves before removing. As soon as possible, wash hands thoroughly after applying bait and before eating, drinking, chewing gum, using tobacco or using the toilet and change into clean clothing.

**ENVIRONMENTAL HAZARDS**

This product is extremely toxic to mammals and birds. Dogs, cats and other predatory and scavenging mammals and birds might be poisoned if they feed upon animals that have eaten this bait. This pesticide is toxic to fish. Do not apply this product directly to water or to areas where surface water is present or to intertidal areas below the mean high water mark. Runoff also may be hazardous to aquatic organisms in water adjacent to treated areas. Do not contaminate water when disposing of equipment wash water or rinse.

*Not permitted for use against the following species in California: Cotton rat, Eastern harvest mouse, Golden mouse, Polynesian rat, Meadow vole, White-throated woodrat, Southern plains woodrat, and Mexican woodrat.

**NOTICE TO PHYSICIAN**

If swallowed or absorbed through the skin, this material may reduce the clotting ability of the blood and cause bleeding. If ingested, administer Vitamin K₃ intramuscularly or orally. Repeat as necessary based on monitoring of prothrombin times.

**PRECAUTIONARY STATEMENTS**

Hazard to Humans and Domestic Animals

CAUTION: Harmful if swallowed. Causes moderate eye irritation. Keep away from children, domestic animals and pets. Do not get in eyes or on clothing. Remove and wash contaminated clothing before reuse. All handlers (including applicators) must wear: shoes plus socks, and gloves. Any person who retrieves animals and pets. Do not get in eyes or on clothing. Remove and wash contaminated clothing before reuse. Harmful if swallowed. Causes moderate eye irritation. Keep away from children, domestic animals and pets. Do not get in eyes or on clothing. Remove and wash contaminated clothing before reuse.

**TREATMENT FOR PET POISONING**

If animals eats bait, call veterinarian at once.

**NOTE TO VETERINARIAN**

Anticoagulant Bromadiolone: For animals ingesting bait that shows poisoning signs (bleeding or elevated prothrombin times), give Vitamin K₃. If needed, check prothrombin times every 3 days until values return to normal (up to 30 days). In severe cases, blood transfusions may be needed.

**FIRST AID**

**HAVE LABEL WITH YOU WHEN OBTAINING TREATMENT ADVICE**

If Swallowed:

• Call a poison control center, doctor, or 1-877-854-2494 immediately for treatment advice.

• Have a person sip a glass of water if able to swallow.

• Do not induce vomiting unless told to do so by the poison control center or doctor.

If in Eyes:

• Hold eye open and rinse slowly and gently with water for 15–20 minutes.

• Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.

• Call a poison control center, doctor, or 1-877-854-2494 immediately for treatment advice.

If Inhaled:

• Get fresh air immediately. Call a poison control center, doctor, or 1-877-854-2494 immediately for treatment advice.

• For breathing problems, keep the patient in a sitting position.

• If breathing has stopped, administer CPR immediately. Call a poison control center, doctor, or 1-877-854-2494 immediately for treatment advice.

If on Skin:

• Remove contaminated clothing and shoes. Wash exposed skin with mild soap and water.

• If skin irritation persists, call a poison control center, doctor, or 1-877-854-2494 immediately for treatment advice.

If in Eyes:

• Hold eye open and rinse slowly and gently with water for 15–20 minutes.

• Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.

• Call a poison control center, doctor, or 1-877-854-2494 immediately for treatment advice.

Not permitted for use against the following species in California: Cotton rat, Eastern harvest mouse, Golden mouse, Polynesian rat, Meadow vole, White-throated woodrat, Southern plains woodrat, and Mexican woodrat.
