

DeFoamer

Spray Solution Defoaming Agent
Makes Spray Tank Filling More Efficient

Contains:

Dimethyl Polysiloxane

DeFoamer works by reducing surface tension of the spray solution, which stops excessive foaming during mixing and agitation. Helps to prevent contamination of outside of spray tank with spray solution. Makes spray tank filling easier.

Application Guidelines

Use **DeFoamer** when it is necessary to reduce foaming in the spray tank. This should be done when spray tank is at least half full and before foam overflows from tank. Use 1 - 2 squirts per 80 – 100 gallon tank capacity.
