1. PRODUCT IDENTIFICATION

Product Name: PROBUILD TC TERMITICIDE
Product No.: A7134C
EPA Signal Word: Warning

Active Ingredient(%): Cypermethrin (25.3%)
Chemical Name: a-cyano-(3-phenoxyphenyl)methyl-cis, trans-3-(2,2-dichloroethenyl)-2,2-dimethylocyclopropanecarboxylate
Chemical Class: A pyrethroid insecticide

CAS No.: 52315-07-8
EPA Registration Number(s): 100-1006

Section(s) Revised: 2, 3

2. HAZARDS IDENTIFICATION

Health and Environmental
- Toxic if inhaled or swallowed. May be harmful in contact with skin. Irritating to eyes and skin.
- Vapors may cause drowsiness and dizziness. May be harmful if swallowed and enters airway.
- May cause an allergic skin reaction.
- May cause temporary itching, tingling, burning or numbness of exposed skin, called paresthesia.

Physical Properties
- Appearance: Dark brown viscous liquid
- Odor: Slight hydrocarbon

Unusual Fire, Explosion and Reactivity Hazards
- Combustible liquid. Can release vapors that form explosive mixtures at temperatures at or above the flash point. Heavy vapors can flow along surfaces to distant ignition sources and flash back.

During a fire, irritating and possibly toxic gases may be generated by thermal decomposition or combustion.

** recommended by NIOSH

*** Syngenta Occupational Exposure Limit (OEL)

**** Recommended by AIHA (American Industrial Hygiene Association)

Ingredients not precisely identified are proprietary or non-hazardous. Values are not product specifications.
4. FIRST AID MEASURES

Have the product container, label or Material Safety Data Sheet with you when calling Syngenta (800-888-8372), a poison control center or doctor, or going for treatment.

**Ingestion:** If swallowed: Call Syngenta (800-888-8372), a poison control center or doctor immediately for treatment advice. Do not give any liquid to the person. Do not induce vomiting unless told to do so after calling 800-888-8372 or by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

**Eye Contact:** If in eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after 5 minutes, then continue rinsing eye. Call Syngenta (800-888-8372), a poison control center or doctor for treatment advice.

**Skin Contact:** If on skin or clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call Syngenta (800-888-8372), a poison control center or doctor for treatment advice.

**Inhalation:** If inhaled: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. Call Syngenta (800-888-8372), a poison control center or doctor for further treatment advice.

**Notes to Physician**
- **Medical Condition Likely to be Aggravated by Exposure**
  - None known.

5. FIRE FIGHTING MEASURES

**Flammability:** Combustible liquid

**Flash Point (Test Method):** 160°F

**Flammable Limits (% in Air):**
- **Lower:** Not Applicable
- **Upper:** Not Applicable

**Autoignition Temperature:** Not Available

**Unusual Fire, Explosion and Reactivity Hazards**
- Combustible liquid. Can release vapors that form explosive mixtures at temperatures at or above the flash point. Heavy vapors can flow along surfaces to distant ignition sources and flash back.

During a fire, irritating and possibly toxic gases may be generated by thermal decomposition or combustion.

**In Case of Fire**
- Use appropriate extinguishing media for combustibles in the area. Wear full protective clothing and self-contained breathing apparatus. Evacuate nonessential personnel from the area to prevent human exposure to fire, smoke, fumes or products of combustion. Prevent use of contaminated buildings, area, and equipment until decontaminated. Water runoff can cause environmental damage. If water is used to fight fire, dike and collect runoff.

6. ACCIDENTAL RELEASE MEASURES

**In Case of Spill or Leak**
- Control the spill at its source. Contain the spill to prevent from spreading or contaminating soil or from entering sewage and drainage systems or any body of water. Clean up spills immediately, observing precautions outlined in Section 8. Cover entire spill with absorbing material and place into compatible disposal container. Scrub area with hard water detergent (e.g.
7. HANDLING AND STORAGE

Store the material in a well-ventilated, secure area out of reach of children and domestic animals. Do not store food, beverages or tobacco products in the storage area. Prevent eating, drinking, tobacco use, and cosmetic application in areas where there is a potential for exposure to the material. Wash thoroughly with soap and water after handling.

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

THE FOLLOWING RECOMMENDATIONS FOR EXPOSURE CONTROLS/PERSONAL PROTECTION ARE INTENDED FOR THE MANUFACTURE, FORMULATION AND PACKAGING OF THIS PRODUCT.

FOR COMMERCIAL APPLICATIONS AND/OR ON-FARM APPLICATIONS CONSULT THE PRODUCT LABEL.

Ingestion: Prevent eating, drinking, tobacco usage and cosmetic application in areas where there is a potential for exposure to the material. Wash thoroughly with soap and water after handling.

Eye Contact: Where eye contact is likely, use chemical splash goggles. Facilities storing or utilizing this material should be equipped with an eyewash facility and a safety shower.

Skin Contact: Where contact is likely, wear chemical-resistant gloves (such as barrier laminate, butyl rubber, nitrile rubber or Viton), coveralls, socks and chemical-resistant footwear. Stringent housekeeping measures are necessary to prevent translocation of the material from contaminated work surfaces to uncontaminated surfaces (railings, doors, etc.). Unprotected contact with such translocated material can result in paresthesia effects (see Section 11 of MSDS). Do not touch unprotected skin areas (face) with contaminated gloves or clothing.

Inhalation: A respirator is not normally required when handling this substance. Use effective engineering controls to comply with occupational exposure limits.

In case of emergency spills, use a NIOSH approved respirator with any R, P or HE filter.

11. TOXICOLOGICAL INFORMATION

Product Name: PROBUILD TC TERMITICIDE
Acute Toxicity/Irritation Studies (Finished Product)

Ingestion:
- Oral (LD50 Female Rat): ~ 294 mg/kg body weight
- Dermal (LD50 Rat): > 2000 mg/kg body weight
- Inhalation (LC50 Rat): > 0.764 mg/l air - 4 hours
- Eye Contact: Severely Irritating (Rabbit)
- Skin Contact: Moderately Irritating (Rabbit)
- Skin Sensitization: A weak skin sensitizer.

Reproductive/Developmental Effects
- Cypermethrin: There were no cypermethrin-induced effects in fertility in two separate two-litter three (filial) generation studies in the rat.

Chronic/Subchronic Toxicity Studies
- Cypermethrin: NOEL (2-yr) for dogs 5 mg/kg, rats 7.5 mg/kg.
- Nervous system effects typical of pyrethroids (motor incoordination, gait abnormalities) in a range of repeated dose studies (dog and rat). Possible nerve fiber degeneration in 14-day study in rats.

Carcinogenicity
- Cypermethrin: Two separate 2-year feeding studies in the rat revealed no evidence of carcinogenicity that could be attributable to cypermethrin.

Other Toxicity Information
- In humans, contact with exposed skin may result in temporary itching, tingling, burning or numbness, called paresthesia. The effect may result from splash, aerosol, or hot vapor contact, or transfer to the face from contaminated gloves and hands. The symptoms normally disappear within 24 hours. Face and genital areas are especially susceptible to this effect. Paresthesia involving the face is also known as “subjective facial sensation” or SFS.

Toxicity of Other Components
- Naphthalene (< 1%)
  - Test results reported in Section 11 for the final product take into account any acute hazards related to the naphthalene in the formulation.
  - Chronic overexposure to naphthalene can affect the liver, kidney, respiratory tract and blood.
- Carcinogenic Status:
  - NTP: Anticipated Carcinogen
  - IARC: Group 2B Possible Human Carcinogen

Propylene Glycol
- Test results reported in Section 11 for the final product take into account any acute hazards related to the propylene glycol in the formulation.
- Reported to cause central nervous system depression (anesthesia, dizziness, confusion), headache and nausea.
- Chronic dietary exposure caused kidney and liver injury in experimental animals.

Target Organs
- Active Ingredients
  - Cypermethrin: CNS, eye, liver, skin
- Inert Ingredients
  - Naphthalene: Liver, kidney, respiratory tract, blood
  - Propylene Glycol: CNS, kidney, liver

12. ECOLOGICAL INFORMATION

Ecotoxicity Effects
- Cypermethrin:

Product Name: PROBUILD TC TERMITICIDE
Page: 4
Environmental Fate
Cypermethrin:
The information presented here is for the active ingredient, cypermethrin.
Not persistent in soil or water. Immobile in soil. Sinks in water (after 24 h).

13. DISPOSAL CONSIDERATIONS

Disposal
Do not reuse product containers. Dispose of product containers, waste containers, and residues according to local, state, and federal health and environmental regulations.
Characteristic Waste: Not Applicable
Listed Waste: Contains Naphthalene - U165

14. TRANSPORT INFORMATION

DOT Classification
Ground Transport - NAFTA
Proper Shipping Name: Pesticides, Liquid, Toxic, N.O.S. (Cypermethrin)
Hazard Class or Division: Class 6.1
Identification Number: UN 2902
Packing Group: PG III
Note: 1 gallon and smaller containers are eligible for consumer commodity exception per 49 CFR 173.153

Air Transport - NAFTA
Proper Shipping Name: Pesticides, Liquid, Toxic, N.O.S. (Cypermethrin)
Hazard Class or Division: Class 6.1
Identification Number: UN 2902
Packing Group: PG III
Packing Auth.: Passenger - 611
   Cargo Aircraft Only - 618
Note: 611 Max inner pkg. 2.5 liters, Max. single pkg. 60 liters
   618 Max inner pkg. 5 liters, Max. single pkg. 220 liters

B/L Freight Classification
Insecticides, NOI, Poison

Comments
Water Transport - International
Proper Shipping Name: Pesticides, Liquid, Toxic, N.O.S. (Cypermethrin), Marine Pollutant
Hazard Class or Division: Class 6.1
Identification Number: UN 2902
Packing Group: PG III
IMDG EMS #: F-A, S-A

Air Transport - International
Proper Shipping Name: Pesticides, Liquid, Toxic, N.O.S. (Cypermethrin)
Hazard Class or Division: Class 6.1
Identification Number: UN 2902
Packing Group: PG III
Packing Auth.: Passenger - 611
15. REGULATORY INFORMATION

EPCRA SARA Title III Classification
Section 311/312 Hazard Classes:  Acute Health Hazard
                                 Chronic Health Hazard
                                 Fire Hazard
Section 313 Toxic Chemicals:  Naphthalene (< 1%)  (CAS No. 91-20-3)

California Proposition 65
Not Applicable

CERCLA/SARA 302 Reportable Quantity (RQ)
Report product spills > 7,500 gal. (based on naphthalene [RQ = 100 lbs.] content in the formulation)

RCRA Hazardous Waste Classification (40 CFR 261)
Not Applicable

TSCA Status
Exempt from TSCA, subject to FIFRA
