

Insect Killer

CONTAINS BOTANICAL ACTIVES

RTU (READY-TO-USE) AQUEOUS EMULSION

ACTIVE INGREDIENTS

Geraniol.....	1%
Cedarwood Oil	1%
Sodium Lauryl Sulfate.....	0.2%

INERT INGREDIENTS.....97.8%

Glycerol monooleate, Glyceryl dicaprylate, Silica hydrate and Water

TOTAL.....100%

Quick and high mortality

Extended control by residual

Kills all stages inclusively

Environmental friendly formula

Low odor and non-staining

Green IPM program ready

Intended for use by pest management operators.

A Minimum Risk Pest Control Product.

Keep Out of Reach of Children.

CAUTION:

SEE BACK FOR FIRST AID AND PRECAUTIONARY STATEMENTS.

1 Gallon (3.785 Liter)

EcoVenger® Insect Killer contains botanical active ingredients made from enhanced natural insecticidal compounds. Formulated with patented micro-emulsification technology, **EcoVenger® Insect Killer** penetrates, spreads and reaches deep into cracks and crevices. **EcoVenger® Insect Killer** is for direct use indoors or outdoors to control bed bugs, ants, crickets, dermestids, fleas, flies, gnats, lice, midges, millipedes, mites, moths, silverfish, spiders, stink bugs, ticks, wasps, yellow jackets and other insect pests.

FOR BED BUG CONTROL

EcoVenger® Insect Killer is ready to use for effective control on bed bug infestations with fast knock down, high mortality rate and extended residual activity. **EcoVenger® Insect Killer** kills bed bug adults, nymphs and eggs, including pesticide-resistant strains*. **EcoVenger® Insect Killer** can be used for all environments including but not limited to: residential, commercial, municipal, schools, dormitories, hotels, offices, theaters, retail stores, airports, health care, daycare, nursing homes, shelters, public transportation and other locations where infestations may occur.

DIRECTION FOR USE: Read the entire label and **SHAKE WELL BEFORE USE**. Use equipment such as sprayers with hand pump or pressurized sprayers with adjustable spray volume and direction. Use directly on structures and surfaces of beds, mattresses, linens, furniture, windows, blinds, curtains, wall, base boards, moldings, rugs or anywhere infestations are found or normally occur. Use a straw tip or pin tip nozzle for treating cracks and crevices. Spray until moist but not soaking. For optimal performance, allow 1 hour after treatment before normal use of the treated area.

PRECAUTIONARY STATEMENT: Avoid direct contact with eyes and mouth. May be harmful if swallowed. Do not use if allergic to the product. Scent dissipates fast depending on room size and ventilaton. Product contains water and may damage or decolorize paper, fabric or some delicate surfaces or finishes. Test on small inconspicuous area before application. For use in non-food areas only of food handling establishments. May cause leaf burn. Test on small area before applying on plants to avoid phytotoxicity.

FIRST AID: If product gets in eyes, flush with clean water. If irritation persists, contact a physician. If swallowed, call a poison control center or doctor immediately.

STORAGE AND DISPOSAL: Store in original container and keep tightly closed when not in use. Avoid heat or direct sunlight. Keep from freezing. Offer for recycling if available or discard in trash.

This is a minimum risk pest control product and qualifies for exemption from EPA registration under Federal Insecticide, Fungicide and Rodenticide Act (FIFRA).
