SPECIMEN LABEL

formula F-40 ENVIRO BLUE

General Information: F-40 ENVIRO BLUE is a unique blend that will screen UV rays while restoring discolored water to a natural ocean blue look. It is environmentally safe, non-toxic and will not stain fish, plants, pets, or other wildlife.

Use F-40 ENVIRO BLUE wherever discoloration is a problem. F-40 ENVIRO BLUE can be used all year round to maintain color and clarity.

How to Estimate Lake or Pond Size:

Measure Length (L), Width (W) and average Depth (D) in FEET. Then multiply for:

Square shaped bodies of water:

$L \times W \times D \times 7.5 =$ approximate gallons

Circular or Elliptical bodies of water:

$L \times W \times D \times 5.9 =$ approximate gallons

Total gallons divided by 325,851.6 (gallons per acre foot) = Acre Feet

Directions: Apply F-40 ENVIRO BLUE directly into the water to be treated. Generally one gallon of F-40 ENVIRO BLUE will treat one million gallons of water.

Notice: Neither the manufacturer nor seller make any warranty, expressed or implied, concerning the use of this product other than indicated on the label. Buyer assumes all risk of use of this material when such use is contrary to label instruction. Read and follow the label directions carefully.
