## formula **F-50** BIO PURE

**General Information:** F-50 BIO PURE is comprised of beneficial bacteria that are environmentally safe and non-toxic to fish and aquatic plant life. F-50 BIO PURE contains a variety of bacteria species. F-50 BIO PURE is safe to use above recommended treatment levels, especially in water features with high nutrient loads.

**Use F-50 BIO PURE to:**

- Enhance Water Quality
- Reduce Phosphate and Ammonia
- Digest Bottom Muck
- Control Odor
- Seed Bio-Filters

**How to Estimate Lake or Pond Size:**

Measure Length (L), Width (W) and average Depth (D) in FEET. Then multiply for:

Square shaped bodies of water:  
 $L \times W \times D \times 7.5 =$  approximate gallons

Circular or Elliptical bodies of water:  
 $L \times W \times D \times 5.9 =$  approximate gallons

Total gallons divided by 325,851.6 (gallons per acre foot) = Acre Feet

**Storage:** Store in a dry, cool place. Keep out of direct sunlight. Do not freeze.

**Directions:** Calculate the amount needed using the chart below. Apply directly to moving water or simply toss packet in the vicinity of the area to be treated.

Use in water temperature above 32° F(0°C) with pH levels 6.0-9.0. Product works much faster when combined with BOTTOM AERATION and BIO-FILTRATION. Treat water features weekly during warm weather.
