PRECAUTIONARY STATEMENTS

Hazards to Humans and Domestic Animals

CAUTION: Harmful if inhaled. Avoid breathing dust. Remove contaminated clothing and wash clothing before reuse. Avoid contact with eyes or clothing. Wash thoroughly with soap and water after handling and before smoking or eating, drinking, chewing gum, using tobacco or using the toilet.

Environmental Hazards

This product is extremely toxic to fish and aquatic organisms, including fish and invertebrates. To protect the environment, do not allow pesticide to enter or run off into storm drains, drainage ditches, gutters or surface waters. Applying this product in calm weather when rain is not predicted for the next 24 hours will help to ensure that wind or rain does not blow or wash pesticide off the treatment area.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage and disposal.

PESTICIDE STORAGE: Store product in original container in a cool, dry, locked place out of reach of children and pets.

PESTICIDE DISPOSAL: If empty: Do not reuse this container. Place in trash or offer for recycling if available..

If partly filled: Call your local solid waste agency or 1-800-CLEANUP for disposal instructions. Never place unused product down any indoor or outdoor drain.

RESTRICTIONS

Do not allow adults, children, or pets to enter the treated area until dusts have settled. Remove pets, birds, and cover fish aquariums before use.

Do not apply this product in a manner that will contact adults, children, or pets, either directly or through drift. Remove pets, birds, and cover fish aquariums before using.

Do not water the treated area to the point of run off.

Do not make applications during rain.

EPA EST. NO. 829-FL-1 (3); 829-NC-1 (4); 829-NC-2 (5) Number following Est. No. corresponds to first digit in Lot No.

DIRECTIONS FOR USE

For Information on this pesticide product (including health concerns, medical emergencies, or pesticide incidents), call the National Pesticide Telecommunications Network at 1-800-858-7378. It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Do not water the treated area to the point of runoff. Do not make applications during rain.

Ornamental Plants - Indoors:

Use a dust applicator such as a shaker can, dust gun, puffer or other bulbous duster, rotary duster or other appropriate duster available.

To protect plants in indoor landscaping - Apply directly on insects to control **leafrollers, armyworms, cutworms** and **cabbageworms** on chrysanthemums and **fungus gnats** on velvet plant.

Do not lightly to cover both upper and lower leaf surfaces with a thin, even film of dust to control **ahpids, armyworms, corn earworms, fall cankerworms, inchworms, Japanese beetles, leafminers, leafrollers, mealybugs, scale crawlers, spring cankerworms,** and **exposed thrips** on the following plant:

Ageratum	English ivy	Poinsettia
Ardisia	Fuschia	Portulaca
Aster	Gladiolus	Pothos
Azelea	Grape ivy	Prayer plant
Baby's breathe	Hypoestes	Purple passion
Begonia	Ivy	Schefflera
Carnation	Marigold	Snapdragon
Chrysanthemum	Palm	Snake Plant
Coleus	Pansy	Stative
Crown of thorns	Piperomia	Velvet plant
Cockscomb	Petunia	Verbena
Draceaeana	Philodendron	Zinnia
Dumbcane	Piggy-back plant	

If application is made indoors, remove infested plants from living area prior to application. Dust plants in an area not likely to be occupied by children or pets (particularly fish). When dust settles plants can be returned to original location.

Use with care on ferns, palms and fuschia. As with all plants listed above, especially carnations, chrysanthemums and roses, there exists a wide variety of species and cultivars, and therefore, a wide variety of susceptibility to injury. To ascertain possible phytotoxicity, dust a few plants as described above, wait 24 hours and check for possible injury. Repeat applications may be necessary to control adult Japanese beetles on roses.

Ornamental Plants - Outdoors:

Use a dust applicator such as a shaker can, dust gun, puffer or other bulbous duster or other appropriate duster available. Dust lightly to cover both upper and lower leaf surfaces with a thin, even film of dust. Apply when air is calm to avoid drift and contact with eyes and skin. Start applying at the farthest corner of the treatment area and work backward to avoid contact with dusted surfaces. Allow dust to settle in treated areas before reentering. Contact insects directly whenever possible.

Controls **aphids, cicadas, corn earworms, fall cankerworms, inchworms, leafminers, leafrollers, mealybugs, bagworms** and **exposed thrips** on the following plants:

Ageratum	Gladiolus	Petunia
Arizona Cypress	Gold Bells	Philodendron
Aster	Hypoestes	Poinsettia
Azalea	Ivy	Rhododendron
Begonia	Lilac	Rose
Coleuss	Marigold	Snapdragon
Common Ninebark	Mark Orange	Taxus
Common Snowberry	Nannyberry	Wax Plant

Exacum	Palm	Weeping fig
Euonymous	Pansy	Zinnia
English Ivy	Pea Shrub	

May also be used on such plants as camellias, carnations, chrysanthemums, dahlias, delphiniums, dogwoods, fuschia, geraniums, crassula, grapevines (ornamental), laurels, stocks and wandering Jews.

Home Vegetable Gardens:

Use a dust applicator such as a shaker can, dust gun, puffer or other bulbous duster, rotary duster or other appropriate duster available. Dust lightly to cover both upper and lower leaf surfaces with a thin, even film of dust. Apply when air is calm to avoid drift and contact with eyes and skin. Start applying at the farthest corner of the treatment area and work backward to avoid contact with dusted surfaces. Allow dust to settle in treated areas before reentering.

Cole Crops: Broccoli, Brussels Sprouts, Cabbage and Cauliflower - To control beet armyworm, diamond back moth, imported cabbageworm, cabbage aphid, cabbage looper, apply every 5 days as needed. Can be applied up to one day prior to harvest. Do not make more than 10 applications on cabbage and 8 applications on the other cole crops per season.

Corn (Sweet) - To control corn earworms, European corn borers, fall armyworms, southern armyworms, southern armyworms, apply to plants every 5 days as needed. Do not make more than 6 applications per season. Can be applied up to 1 day prior to harvest.

Cucurbits: Balsam pear (bitter melon), Chinese waxgourd (Chinese preserving melon), Citrus melon, cucumber, Gherkin, Edible gourds, Melons including hybrids such as cantaloupe, casaba, crenshaw, honeydew, honeyballs, mango melon, muskmelon, and Persian melon, pumpkin, summer & winter squash and watermelon - To control aphids, cabbage looper, cucumber beetle (adults), cutworms, leafhoppers, leafminers, melonworm, pickleworm, plant bugs, squash bugs, ensure uniform coverage of plants. Do not make more than 8 applications per crop per season. Can be applied up to the day of harvest.

Eggplant - To control Colorado potato beetle, vegetable leaf miner, ensure uniform coverage of plants. Do not make more that 16 applications per season. Can be applied up to 3 days prior to harvest.

Horseradish - To control crucifer weevil, do not make more than 3 foliar applications per season. Can be applied up to 22 days prior to harvest.

Leafy Vegetables: amaranth, arugula, celery, celtuce, chervil, corn salad, chrysanthemum (edible-leaved and garland), cress (garden and upland), dandelion, dock, endive, fennel, lettuce (head and leaf), orach, parsley, purslane (garden and winter), rhubarb, spinach and Swiss chard - To control alfalfa looper, aphids, beet armyworm, cabbage looper, corn earworm, cutworms, European cornborer, fall armyworm, green cloverworm, southern armyworm, vegetable leaf miner, apply every 5 to 10 days as needed. Do not make more than 7 applications per crop per season. Can be applied up to 1 day prior to harvest.

Potatoes - To control beet armyworm, Colorado potato beetle, potato beetle, potato leafhopper, potato aphid, potato tuberworm, cabbage looper, cutworms, European corn borer, potato psyllid, tarnished plant bug, do not make more than 12 applications per season. Can be applied up to 7 days prior to harvest.

Peppers - To control vegetable leafminer, cabbage looper, flea beetle, corn earworm, pepper weevil, European corn borer, do not make more than 8 applications per season. Can be applied up to 3 days prior to harvest.

Tomatoes (Do not apply on cherry tomatoes and varieties yielding tomatoes less than one inch in diameter.) - To control beet and southern armyworms, tomato pinworms, tomato fruitworms, hornworms, granulate cutworms, Colorado potato beetles, cabbage loopers, apply to plants for uniform coverage. Do not make more that 6 applications per season. Can be applied up to day of harvest.
