Derived from: Magnesium sulfate, Iron glycinate, Iron EDTA, Manganese glycinate and Zinc glycinate

KEEP OUT OF REACH OF CHILDREN

WARNING

Causes eye and skin irritation. Harmful if swallowed

Information regarding the contents and levels of metals in this product is available on the internet at: <http://www.aapfco.org/metals.html>

FIRST AID

IF IN EYES: Rinse cautiously with water for 15 minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical attention.

IF SWALLOWED: Rinse mouth. Call a poison control center or doctor for treatment advice if you feel unwell.

IF ON SKIN: Wash with plenty of water. If skin irritation occurs: Get medical attention. Take off contaminated clothing and wash it before reuse.

In case of medical emergency, call toll free 1 866-767-5042.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

Storage: Store in a locked area away from children, feed and food products. Ensure that the area is clean and dry. Reseal opened bags by folding down and securing the bag. To minimize application problems, do not store unused product in sprayers for long periods of time.

Disposal: Dispose of contents/container in accordance with Federal, state and local regulations.

FOR CHEMICAL EMERGENCY, SPILL, LEAK, FIRE, EXPOSURE, OR ACCIDENT, CALL: CHEMTREC 1-800-424-9300

GRAVITY® S MICROSURGE

SOLUBLE MICRONUTRIENT FERTILIZER

GENERAL INFORMATION

Gravity S MicroSurge is a 100% soluble fertilizer designed to provide an enhanced color, greening response in turf and ornamentals. **Gravity S MicroSurge** is specifically formulated to be rapidly absorbed through leaf tissue to provide a rapid response. EDTA Iron extends the length of plant greening.

A number of variables influence the rate of application necessary to prevent or correct a specific deficiency. For best results, follow good agronomic practices and conduct soil, resin or tissue test. Additional fertility may need to be supplied from other sources. For specific recommendations for your plants, consult your local Heritage Professional Products representative.

DIRECTIONS FOR USE

Exercise care when applying product. May be harmful if swallowed or inhaled. Keep out of children's reach. Avoid eye contact and prolonged, repeated contact with skin. May cause eye, membrane, and skin irritation. Wash all contact areas thoroughly after handling.

READ ENTIRE LABEL BEFORE USING

Gravity S MicroSurge can be tank mixed. **Do not apply with calcium or phosphates in large quantities.** If you are unfamiliar with the product, a jar test should be used to confirm compatibility and a small area should be treated with the product prior to large scale application.

GOLF COURSES

Gravity S MicroSurge should be applied at 2 to 4 lbs per acre.

every 21 to 31 days as needed during the growing season. Spray volumes can range from 1 to 4 gallons per 1,000 sq. ft. for adequate coverage. **Gravity S MicroSurge** may be used on greens, tees, fairways, roughs, and other turf areas composed of turfgrasses including. For best results do not irrigate or mow until sprayed area has completely dried.

LAWNS AND OTHER TURF AREAS

Gravity S MicroSurge should be applied at 2 to 5 lbs per acre every

21 to 31 days as needed during the growing season. Spray volumes can range from 0.5 to 4 gallons per 1,000 sq. ft. for adequate coverage. **Gravity S MicroSurge** may be used on all turfgrasses. For best results do not irrigate or mow until sprayed area has completely dried.

TREES AND ORNAMENTALS

Gravity S MicroSurge should be applied at 1 to 5 lbs per acre of landscaped area every 21 to 31 days as needed during the growing season. For container grown products, trees or other ornamentals apply a foliar spray or soil drench at a rate of 5 to 25 lbs. per 100 gals of water. In a drench, use a minimum of 5 gallons of carrier. Prior testing is required before applying to open flowers.

MIXING INSTRUCTIONS

Agitation will aid in getting the product to go into solution. If carrier water is cold, user may need to pre-mix the soluble fertilizer with warmer water in a separate container prior to adding it into the sprayer.

Spray coverage and drift control:

To optimize spray coverage or deposition, and to reduce drift, include Droplex® adjuvant.
