

# GreenClean®

ACID CLEANER

## DANGER – PELIGRO

### KEEP OUT OF REACH OF CHILDREN • READ LABEL BEFORE USE

**Precautionary Statement:** Keep only in original container. Do not breathe dusts or mist. Do not get in eyes, on skin or on clothing. Wash thoroughly after handling. Wear protective gloves, clothing, eye protection, face protection. Absorb spillage to prevent material damage. Store locked up. Store in corrosive resistant container, never use metal containers. Store away from incompatible materials.

#### FIRST AID

**IF SWALLOWED:** Rinse mouth. Do not induce vomiting. **IF ON SKIN (or hair):** Take off immediately all contaminated clothing. Rinse skin with water/shower. **IF INHALED:** Remove person to fresh air and keep comfortable for breathing. **IF IN EYES:** Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call a POISON CENTER/doctor.

For specific treatments see FIRST AID section on SDS.

GreenClean Acid Cleaner is a blend of mineral acid with wetting agents that quickly works on organic deposits, calcium and other hard water mineral deposits, alkaline/caustic buildup, and rust.

**USES:** Use on equipment in all types of food production facilities, dairy, beverage, poultry, agricultural, horticultural and other general industries wherever scale, oxide or lime build up is a problem. Use to remove whitewash from greenhouse glass. Can be used for neutralization of alkalinity in hoses, lines

and cleaners. May be sprayed, circulated or used in soak tanks. **Not recommended for use on soft metals and painted surfaces.**

**SURFACE CLEANING DIRECTIONS FOR USE:** Dilute 3–8 fl. oz. of GreenClean Acid Cleaner per gallon of clean water. Allow to dwell for 10-15 minutes followed with a clean water rinse using a pressure washer or hose sprayer. Higher rates are recommended for heavily soiled surfaces. After rinsing, use SaniDate 5.0 Sanitizer/Disinfectant according to label directions to disinfect hard surfaces and equipment.

**IRRIGATION LINE CLEANING DIRECTION FOR USE:** Make GreenClean Acid Cleaner application between crops or when crops are not present. Set injector at 1:50 and inject concentrated GreenClean Acid Cleaner until irrigation lines are at or near capacity. Allow to sit for 2-3 hours. Flush lines with clean water until pH returns to neutral. Use GreenClean Acid Cleaner prior to or in conjunction with SaniDate 5.0 Sanitizer/Disinfectant as part of BioSafe Systems' complete line cleaning program.

**Additional Precautions:** Before mixing with other chemicals, jar test to ensure material compatibility. Avoid contact with pH and conductivity electrodes. GreenClean Acid Cleaner is phytotoxic to plants and seeds. Avoid contact with plant material and delicate surfaces. Do not allow GreenClean Acid Cleaner solution to dry and rinse with water immediately after recommended contact time.

**Hazard Statements:** Causes severe skin burns and serious eye damage. Harmful to aquatic life.

**Use on stainless steel equipment, irrigation lines, greenhouse surfaces, conveyors, vats, and piping systems**

#### COMMERCIAL USE ONLY

#### CONTAINS:

Sulfuric Acid.....7664-93-9..... 35-40%  
Proprietary Surfactant Blend..... 60-65%
