

ECOLOGICALLY SOUND SOLUTIONS TO PEST PROBLEMS

IGUANA SCRAM™

PROFESSIONAL

Designed & formulated for professional use:

- Pest Control Operators • Landscapers • Groundkeepers
- Lawn Installation & Maintenance Professionals

GRANULAR IGUANA REPELLENT

DIRECTIONS FOR USE: **For Landscaped Areas:** Using the scoop provided, spread Iguana Scram™ Professional by hand inside the landscaped areas so it is visibly heavy enough to see. One scoop should cover 10 square feet. Also apply as a 18-inch barrier around the outside of the landscaped area. **For Trees and Shrubs:** Sprinkle around shrub bases to keep iguana's from climbing to get to vegetation. Apply a 24-inch barrier around trees or shrubs starting at the drip line. This will keep them away from the leaves.

For Excessive iguana problems in areas: Apply a second band 15 inches out from the first strip around the bed & sprinkle Iguana Scram Pro lightly throughout the inside of the bed. This will stop the problem & only a single band nearest the bed will be needed for maintenance.

PRECAUTIONARY STATEMENTS: Wash skin after use. Avoid contact with eyes or cuts. If in eyes, flush with water 15-20 mins. Call Poison Center or doctor for treatment. **Storage:** Store in original sealed container. Store away from direct sunlight or excessive heat. Do not contaminate water by storage or disposal. Do not use on food or feed crops. Do not apply directly to water. **Disposal:** Do not reuse empty container. Dispose of properly. Buyer assumes all responsibility for safety and use not in accordance with directions. EPIC represents that this product qualifies for exemption from EPA registration under Section 25(b) of FIFRA and has not been registered by the EPA.

Net Wt. **22 lbs.**
(9.98kg)
