

WARNING : : DANGER! FLAMMABLE LIQUID & VAPOR

IMPROPER HANDLING CAN RESULT IN INJURY OR DEATH

IPA 99 is produced to comply with current Good Manufacturing Practices according to USP General Chapter 1078 and the USP Monograph for Isopropyl Alcohol in effect. It is therefore intended for use as an Excipient only, not for use as an active pharmaceutical ingredient (API).

IPA 99 is intended for external use in the manufacturing of scientific, industrial, and chemical products. The intended use of this product is as a solvent and cleaning or sanitizing medium, as well as other pharmaceutical uses.

Determination of suitability of this product for its intended legal use is the responsibility of the purchaser and user.

Added safety measures: Our bottles are fitted with a flame arrestor (aka a flame mitigation device) in the neck of the bottle to prevent accidental ignition of vapors and fuel inside the bottle. **DO NOT REMOVE FLAME ARRESTOR INSERT!** Removal may result in **INJURY or DEATH!** Heed all instructions for your own protection.

Keep away from sparks & other sources of ignition i.e. open flames, lighters, cigarettes, vaping devices, electric motors, etc. Use only explosion proof devices and tools in the vicinity when working with this product. Use in well ventilated area. Do not breathe fumes, mist vapors, or spray. Wash hands and forearms thoroughly after handling this product. May cause damage to organs with repeated exposure. Wear proper protective gear.

Chemical Emergencies : Call CHEMTREC 24/7 800.424.9300

When calling CHEMTREC for a spill, fire, exposure or accident, refer to Ethanol 200 from American Ethanol Holdings LLC / See SDS for further information on website shown below .

REGULATORY SAFETY INFORMATION

HAZARD STATEMENT:

- H225: Highly flammable liquid and vapor
- H319: Causes serious eye injury
- H315: Causes skin irritation
- H335: May cause respiratory irritation
- H303: May be harmful if swallowed
- H411: Toxic to aquatic life with long lasting effects

PREVENTIVE:

- P210: Keep away from heat, sparks, open flames, & hot surfaces
- P233: Keep container tightly closed
- P240: Ground & bond container & receiving equipment
- P241: Use explosion-proof electrical, ventilating, & lighting
- P242: Use only non-sparking tools
- P243: Take precautionary measures against static discharge
- P264: Wash hands thoroughly after handling
- P273: Avoid release to environment
- P261: Avoid breathing fumes, gas, mist, vapors, or spray
- P270: Do not eat, drink, or smoke when using this product
- P280: Wear protective gloves, clothing, eye, & face protection.

RESPONSE:

- P370+P380+P376+P378: In case of fire; evacuate area, stop leak if safe to do so, use proper fire-extinguishers (e.g. alcohol resistant foam, dry powder, CO2) for extinction
- P305+P351+P338: If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses. Continue rinsing.
- P337+P313: If eye irritation persists, get medical advice & attention.
- P303+P361+P353: IF ON SKIN (or hair) Remove / Take off immediately all contaminated clothing & shower.
- P304+P312: IF INHALED: Call POISON CENTER (CHEMTREC) or doctor/physician if feeling ill.

STORAGE:

- P403+P235: Store in well ventilated place. Keep cool.
- P410: Protect from sunlight.
