GENERAL INFORMATION

LESCO Foam will produce thick, long lasting marks when used with a foam marking machine. This foam will not burn turf when used according to label directions.

RATES:

- 1) Fill foam tank approximately 1/2 full with water.
- 2) Add foam.
- 3) Fill balance of foam tank to proper level.
- 4) Premature foaming during the filling procedure may be reduced by utilizing a "bottom-filling" tube which adds the LESCO Foam to the bottom of the foam tank.

If foam appears runny and thin:

- 1) Check hose connections for proper air mixing.
