Subject: Label Amendment: Adding the Emerging Viral Pathogens Claim
Product Name: Lysol Brand Disinfectant S.A. Cleaner
EPA Registration Number: 675-55
Application Date: 02/28/2020
Decision Number: 560144

Dear Ms. Turner:

The amended label referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act, as amended, is acceptable. This approval does not affect any conditions that were previously imposed on this registration. You continue to be subject to existing conditions on your registration and any deadlines connected with them.

A stamped copy of your labeling is enclosed for your records. This labeling supersedes all previously accepted labeling. You must submit one copy of the final printed labeling before you release the product for shipment with the new labeling. In accordance with 40 CFR 152.130(c), you may distribute or sell this product under the previously approved labeling for 18 months from the date of this letter. After 18 months, you may only distribute or sell this product if it bears this new revised labeling or subsequently approved labeling. "To distribute or sell" is defined under FIFRA section 2(gg) and its implementing regulation at 40 CFR 152.3.

Because you have opted to add statements pertaining to emerging viral pathogens to your label as described in the August 19, 2016, Guidance to Registrants: Process For Making Claims Against Emerging Viral Pathogens Not On EPA-Registered Disinfectant Labels ("Guidance"), https://www.epa.gov/sites/production/files/2016-09/documents/emerging_viral_pathogen_program_guidance_final_8_19_16_001_0.pdf, you are subject to the following additional terms of registration:

1. You may make statements pertaining to emerging viral pathogens only through the following communications outlets: technical literature distributed exclusively to health care facilities, physicians, nurses and public health officials, "1-800" consumer information services, social media sites and company websites (non-label related). These statements shall not appear on marketed (final print) product labels.

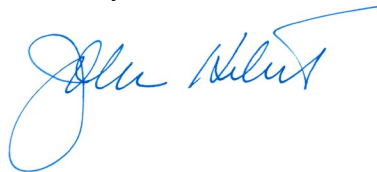

2. Your statements pertaining to emerging viral pathogens must adhere to the format approved on the Agency-accepted master label.
3. You may make statements pertaining to emerging viral pathogens only upon a disease outbreak that meets all the following criteria:
 - a. The causative organism must be a virus that causes an infectious disease that has appeared in a human or animal population in the U.S. for the first time, or that may have existed previously but is rapidly increasing in incidence or geographic range.
 - i. For human disease, the outbreak is listed in one of the following Centers for Disease Control (CDC) publications:
 - A. CDC Current Outbreak List for “U.S. Based Outbreaks” (www.cdc.gov/outbreaks),
 - B. CDC Current Outbreak List for “Outbreaks Affecting International Travelers” with an “Alert” or “Advisory” classification (www.cdc.gov/outbreaks) (also released through the CDC’s Health Alert Network (HAN) notification process)
 - C. Healthcare-Associated Infections (HAIs) Outbreaks and Patient Notifications page (www.cdc.gov/hai/outbreaks)
 - ii. For animal disease, the outbreak is identified as an infectious disease outbreak in animals within the U.S. on the World Organization for Animal Health (OIE) Weekly Disease Information page (www.oie.int/wahis_2/public/wahid.php/Diseaseinformation/WI).
 - A. The CDC or OIE has identified the taxonomy, including the viral family and/or species, of the pathogen and provides notice to the public of the identity of the emerging virus that is responsible for an infectious disease outbreak. Based on the taxonomy of the outbreak pathogen identified by the CDC or OEI, the pathogen's viral subgroup is small non-enveloped, large non-enveloped, enveloped.
 - B. The virus can be transmitted via environmental surfaces (non-vector transmission), and environmental surface disinfection has been recommended by the CDC, OIE or EPA to control the spread of the pathogen.
4. You may begin communicating statements pertaining to emerging viral pathogens only upon CDC or OIE’s publication per term 3.a. of an outbreak of an emerging viral pathogen meeting all of the criteria of term 3. You must cease and remove all such non-label communications intended for consumers no later than 24 months after the original publication of the outbreak per term 3.a., unless the Agency issue written guidance to the contrary due to continued public health concerns. The emerging pathogen claim language may remain on the master label.

5. Terms from points 1 through 4 above shall become immediately void and ineffective if registration for use against HIV type 1, Parainfluenza Type 2, RSV, Herpes Simplex Virus types 1 and 2, Adenovirus Type 2, Rotavirus, Rhinovirus Type 37, Poliovirus, Hepatitis A and Echovirus Type 12 is suspended or cancelled or no longer meets the criteria for a disinfectant claim (see EPA Product Performance Test Guideline 810.2200). In addition, terms B.1 through B.4 above shall become immediately void and ineffective upon your receipt of evidence of ineffectiveness against any pathogen in a less-resistant Spaulding category.

Should you wish to add/retain a reference to the company's website on your label, then please be aware that the website becomes labeling under the Federal Insecticide Fungicide and Rodenticide Act and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) list examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA's Office of Enforcement and Compliance.

Your release for shipment of the product constitutes acceptance of these conditions. If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6. If you have any questions, you may contact Aline Heffernan at 703-347-8602 or via email at Heffernan.Aline@epa.gov.

Sincerely,

John Hebert, Chief
Regulatory Management Branch 1
Antimicrobials Division (7510P)
Office of Pesticide Programs

<< USAGE CLAIMS >>

For commercial use

Great for (bathrooms) (restrooms) (floor) {insert use sites / surfaces – see Appendix 2}

Great for everyday use (in) (bathrooms) (restrooms) (on floors)

Great on {insert use surface / soil – see Appendix 2}

Use (this product) on all washable hard, non-porous (inanimate environmental) surfaces that can be found in {insert use sites / surfaces – see Appendix 2}

<< SANITIZING CLAIMS – Hard, non-porous, non-food contact surface >>

Fast Acting Sanitizer

Kills (Eliminates) 99.9% of bacteria***

Kills (Eliminates) 99.9% of bacteria (in (30) seconds)***

Kills (Eliminates) 99.9% of bacteria on hard, non-porous surfaces in (30) seconds***

Kills (Eliminates) 99.9% of bacteria and viruses on hard, non-porous surfaces in seconds***

Leaves (household) (bathroom) (restroom) surfaces sanitary

One step cleaning and sanitizing

Sanitizes (household) (bathroom) (restroom) surfaces in (30) seconds***

<< DISINFECTING CLAIMS – Hard, non-porous surface >>

An effective disinfectant cleaner (on non-food contact surfaces) and deodorizer (for use in the) (bathroom) (restroom) (for use on floors)

An effective disinfectant cleaner (on non-food contact surfaces) and deodorizer for use on {insert use sites / surfaces – see Appendix 2}

Cleans and prevents mold and mildew

Disinfects bathroom surfaces in seconds⁴

Effective: Cleans, shines, deodorizes and disinfects washable (bathroom) (restroom) surfaces and fixtures

Effective against: salmonella**

Effectively cleans, shines and disinfects (washable hard, non-porous surfaces in) {insert use sites/ surfaces – see Appendix 2}

Eliminates odors caused by bacteria

Kills 99.9% of bacteria and viruses**

Kills (99.9% of) germs**

Kills (99.9% of) mold

Kills 99.9% of viruses and bacteria**

Kills Athlete's Foot Fungus in the (bathroom) (restroom)

Kills bacteria*{insert organisms – see Appendix 1} while it cleans tough (bathroom) (restroom) messes

Kills (Disinfects) common (household) bacteria and (viruses) (fungi) without bleaching**

Kills (Disinfects) common (household) germs** without bleaching

Kills (Eliminates) bacteria*

Kills (Eliminates) bacteria and viruses**

Kills (Eliminates) germs**

Kills Echovirus Type 12, Hepatitis A Virus, Herpes Simplex Virus Type 1 & 2, Influenza A2 Virus, Poliovirus Type 1 and Rotavirus WA in 5 minutes

Kills germs** and controls the (spread) (growth) of fungi and mold between treated hard, non-porous surfaces

Kills germs** that ordinary cleaners don't

Kills germs** while it cleans (tough) (bathroom) (restroom) (messes)

Kills (household) bacteria (and sanitizes without bleaching)*

Kills(:) {insert organisms – see Appendix 1}

Note: Bracketed information is denoted as: <<directive>>, {insert as noted}, (optional text), [required qualifier].
The term "this product" used throughout this document may be replaced with the marketed product brand name.
To use the term "germ**" the product must be efficacious against 2 of the 3 major classes of organisms.
The product label must identify the specific bacteria*, virus*, fungus* & mold*.
The term (x) is a placeholder that represents a number between 1 and 99.
The term "Y" is a place holder for a character A – Z.

Kills more than 99.9% of bacteria and viruses**
Kills odor-causing bacteria (in the) (bathroom) (restroom)
Kills Rhinovirus Type 39 and Rotavirus WA in 30 seconds
Kills viruses†

On hard, non-porous, inanimate environmental surfaces, this product kills (the following bacteria, fungi and viruses):

{insert organisms – see Appendix 1}

(Prevents) (Controls) mold and mildew growth

Prevents the growth of mold and mildew

Prevents the spread of harmful (household) germs** between treated hard, non-porous surfaces

<< Additional CLAIMS – Specific to Liquid Dispensing Mop / Device / Appliance >>

Solution dissolves tough (sticky) messes
Super absorbent drying pad(s)
Toss (away the dirt forever)
Washable (cleaning) (microfiber) (floor) pads
(with) Scrubbing bristles (for) (those) (stubborn, dried-on messes) (and) (sealed grout lines)

<< USE DIRECTIONS >>

DIRECTIONS FOR USE: It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Spray 6-8" from surface.

(To Operate: Turn nozzle (to) (counter clockwise) ("ON") (desired) (position) (to preferred usage).)

(To Refill (Bottle): (To) (Remove) (cut) (pouch) (bag) (sprayer) (trigger) (unit) (cap) (by) (twist) (twisting) (turn) (turning) (off) (to the right) (clockwise) (and) (lift) (up) (out). Pour (in product) from refill (container) (and) (replace) (attach) (trigger) (unit) (sprayer) (by pushing down until (unit) (it)) (trigger) (unit) (sprayer) snaps into place).)

(To Refill (Bottle): Remove cap. Attach trigger unit.)

To Clean (/ Deodorize) (/ Remove Allergens††): (Spray) (Apply to) surface until thoroughly wet. (Mop) (Wipe) with a clean (cloth or sponge) (pad) (or rinse with water).

To Clean (Lime Scale) (and) (Soap Scum): Allow product to sit 15-20 seconds to penetrate soil before wiping clean. Repeat if necessary.

To Sanitize / Disinfect: Pre-clean surface. (Spray) (Apply to) surface until thoroughly wet.

To Sanitize: Leave for 30 seconds before wiping. **To Disinfect:** Leave for 10 minutes before wiping. (For Rhinovirus Type 39 (common cold) and Rotavirus WA leave for 30 seconds (to disinfect).

To Control (and Prevent) (the Growth of) Mold & Mildew: Spray 6-8" from pre-cleaned surface. Let surface remain wet for 3 minutes and then allow to air dry. Repeat application at weekly intervals or when mold and mildew growth appears.

<< ALTERNATE USE DIRECTIONS >>

DIRECTIONS FOR USE: It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

(To Operate: Turn nozzle (to) (counter clockwise) ("ON") (desired) (position) (to preferred usage).)

(To Refill (Bottle): (To) (Remove) (cut) (pouch) (bag) (sprayer) (trigger) (unit) (cap) (by) (twist) (twisting) (turn) (turning) (off) (to the right) (clockwise) (and) (lift) (up) (out). Pour (in product) from refill (container) (and) (replace) (attach) (trigger) (unit) (sprayer) (by pushing down until (unit) (it)) (trigger) (unit) (sprayer) snaps into place).)

To Clean (/ Deodorize) (/ Remove Allergens††): Apply to surface. (Allow product to penetrate (tough) {insert soils from appendix 2} soil(s).) Wipe. (No rinsing required.)

To Disinfect/Sanitize (hard non-porous surfaces): Preclean. Apply and leave wet for 30 seconds to sanitize and 10 minutes to disinfect. (For Rhinovirus Type 39 (common cold) and Rotavirus WA leave for 30 seconds (to disinfect). Wipe dry. (Rinse food contact surfaces (and toys) with potable water.)

To Control (and Prevent) (the Growth of) Mold & Mildew: Preclean. Apply and leave wet for 3 minutes and allow to air dry. Repeat weekly or as needed.

<< Advisory Statements – must be included were appropriate >>

Does not harm most (bathroom) (restroom) (floor) surfaces.

On painted surfaces test a small inconspicuous area first.

Note: Bracketed information is denoted as: <<directive>>, {insert as noted}, (optional text), [required qualifier].
The term "*this product*" used throughout this document may be replaced with the marketed product brand name.
To use the term "germ*" the product must be efficacious against 2 of the 3 major classes of organisms.
The product label must identify the specific bacteria*, virus*, fungus* & mold*.
The term (x) is a placeholder that represents a number between 1 and 99.
The term "Y" is a place holder for a character A – Z.

For all other surfaces, test on a small hidden area before use.
May discolor painted surfaces including decorative tile and colored grout.
May etch some older sinks and tubs.
Not recommended for use on acrylic plastics.
Rinse bathtub / shower surfaces with water after using product.
Do not use on marble surfaces.
Will not harm septic tanks.

If the last portion (of this product) is difficult to dispense, turn trigger 180° to face opposite direction; this will ensure full use of its contents.

<< Additional USE DIRECTIONS (claim specific) – Specific to Commercial / Institutional / Industrial Products Only >>

<< Terminal Sterilant Statement – qualified metal surfaces >>

This product is not for use on critical & semi-critical medical devices or medical equipment surfaces.

<< Terminal Sterilant Statement – unqualified metal surfaces >>

This product is not to be used as a terminal sterilant / high level disinfectant on any surface or instrument that ⁽¹⁾ is introduced directly into the human body, either into or in contact with the bloodstream or normally sterile areas of the body; or ⁽²⁾ contacts intact mucous membranes but which does not ordinarily penetrate the blood barrier or otherwise enters normally sterile areas of the body. This product may be used to pre-clean or decontaminate critical or semi-critical medical devices prior to sterilization or high level disinfection.

KILLS HUMAN IMMUNODEFICIENCY VIRUS TYPE 1 [HIV-1 AIDS Virus] ON PRE-CLEANED ENVIRONMENTAL SURFACES / OBJECTS PREVIOUSLY SOILED WITH BLOOD / BODY FLUIDS, in health care settings or other settings in which there is an expected likelihood of soiling of inanimate surfaces / objects with blood or body fluids; and in which the surfaces / objects likely to be soiled with blood or body fluids can be associated with the potential for transmission of Human Immunodeficiency Virus Type 1 [HIV-1] [associated with AIDS].

SPECIAL INSTRUCTIONS FOR CLEANING AND DECONTAMINATION AGAINST HIV-1 OF SURFACES / OBJECTS SOILED WITH BLOOD / BODY FLUIDS:

PERSONAL PROTECTION: When handling items soiled with blood or body fluids, use disposable latex gloves, gowns, masks and eye coverings.

CLEANING PROCEDURES: Blood and other body fluids must be thoroughly cleaned from surfaces and objects before application of this product.

CONTACT TIME: Allow surface / object to remain wet for 10 minutes.

DISPOSAL OF INFECTIOUS MATERIALS: Blood and other body fluids must be autoclaved and disposed of according to local regulations for infectious waste disposal.

**<< USE INSTRUCTIONS / ADVISORY STATEMENTS –
Specific to Liquid Dispensing Mop / Device / Appliance >>**

<< USE DIRECTIONS >>

(Do not remove cap.) (Place the arrow against the handle.) Insert into (appliance) (mop) (device).

General Cleaning: (Pull trigger to dispense liquid.) (Spray solution.) (While mopping, spread liquid uniformly over floor with pad.) (No need to rinse.)

To Sanitize / Disinfect: For use on hard, non-porous floors. Use the liquid dispensing (mop) (device) (appliance) to spray floor until thoroughly wet. **To Sanitize:** Let stand for 30 seconds before mopping. **To Disinfect:** Let stand for 10 minutes before mopping, then remove excess liquid. For heavily soiled floors, clean before following sanitizing / disinfecting instructions.

<< ADVISORY STATEMENTS >>

Bottle fits Lysol® (product name) (and) (other) (regular) (leading) (liquid dispensing) (mops) (floor) (care) (products) (devices) (appliances).

Can be used in cleaning (products) (devices) (tools) that recommend the use of (this product).

Can be used with leading liquid dispensing (mops) (floor) (care) (products) (devices) (appliances).

Not recommended for use on visibly worn, unsealed, unfinished, waxed or oiled wood floors. If uncertain about your wood

Note: Bracketed information is denoted as: <<directive>>, {insert as noted}, (optional text), [required qualifier].
The term “*this product*” used throughout this document may be replaced with the marketed product brand name.
To use the term “germ**” the product must be efficacious against 2 of the 3 major classes of organisms.

<< APPENDIX 3 >>

<< EMERGING VIRAL PATHOGENS CLAIMS – Hard, non-porous surface >>

This product qualifies for emerging viral pathogen claims per the EPA's 'Guidance to Registrants: Process for Making Claims Against Emerging Viral Pathogens not on EPA-Registered Disinfectant Labels' when used in accordance with the appropriate use directions indicated below.

This product meets the criteria to make claims against certain emerging viral pathogens from the following viral categories:

- Enveloped Viruses
- Large Non-Enveloped Viruses
- Small Non-Enveloped Viruses

For an emerging viral pathogen that is a/an...	...following the directions for use for the following organisms on the label:
Enveloped Virus	Poliovirus
Large Non-Enveloped Virus	Poliovirus
Small, non-enveloped virus	Poliovirus

{Product name} has demonstrated effectiveness against viruses similar to [name of emerging virus] on hard, [porous and/or non-porous surfaces].
