FIRST AID

IF ON SKIN:
• Rinse skin immediately with plenty of water for 15-20 minutes.

IF IN EYES:
• Hold eye open and rinse slowly and gently with water for 15-20 minutes.
• Do not give anything by mouth to an unconscious person.

For MEDICAL USE ONLY. Call a poison control center or doctor immediately in case of ingestion.

CAUTION

• Call a poison control center or doctor for treatment advice.

Note to Physician: No specific antidote is available. Treat the patient symptomatically.

IF SWALLOWED:
• Do not induce vomiting. Call a poison control center or doctor immediately if swallowed.

Emergency Response Telephone No. 1-800-334-7577.
FIRST AID

• Call a poison control center or doctor for treatment advice.
• Remove contact lenses, if present, after the first 5 minutes, then continue rinsing.
• Do not give anything by mouth to an unconscious person.
• Call a poison control center or doctor immediately for treatment advice.
• Call a poison control center or doctor for treatment advice.
• Rinse skin immediately with plenty of water for 15-20 minutes.
• Take off contaminated clothing.

CAUTION

Harmful if absorbed through skin. Harmful if swallowed. Causes moderate eye irritation. Avoid contact with skin, eyes, or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, or applying to the body.

HAZARDS TO HUMAN AND DOMESTIC ANIMALS

If in eyes: Have the product container or label with you when calling a poison control center or doctor, or refer to the label for first aid instructions. For medical emergencies, call 24 hours a day 1-800-334-7577. Place bait in areas of known foraging activity, along foraging trails and into nest sites. A careful inspection will help to identify available bait placement; additional references can be obtained by calling 1-800-334-7577.

Formulated to be attractive to many species of pest ants, Maxforce Quantum Ant Bait controls a broad spectrum of ants. Species attracted to and controlled by this bait include: Acrobat ant, Argentine ant, Big-Headed ants, Black Garden Ant, Crazy ants, Guest ant, Little Black ant, Odorous House ant, Pavement ant, Pharaoh's ant, Rover ants, Thief ant, or White-Footed ant. These and other ant species are attracted to sweets and moisture will be attracted to and controlled by this bait.

PRECAUTIONARY STATEMENTS

PRECAUTIONS TO AVOID EXPOSURE

Avoid contact with skin, eyes, or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, or applying to the body.

APPLICATION INFORMATION

Application Routes

• For Product Use in or on electrical equipment where a possibility of shock hazard exists.

Avoid contact with skin, eyes, or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, or applying to the body.

APPLICATION INFORMATION

Application Routes

• For Electrical Equipment

FOOD/FEED HANDLING ESTABLISHMENTS

Applications in areas where food, feed, or food processing surfaces may become contaminated. Do not apply in meat and dairy areas of facilities that are routinely washed, tops of refrigerators, behind safety glass, or are gaining access to the structure. Place bait on or adjacent to the structure where you observe ants entering the property.

Application in food/feed areas of food/feed handling establishments other than the medication’s instinct. Clean food/feed logically after application. Follow up applications may be needed to achieve effective control.

REFILLABLE STATIONS:

Machine Quantum Ant Bait is designed to take advantage of metabolites (food exchange) in ants, allowing for effective control of ant colonies. This makes Quantum Ant Bait ideal for places where more frequent or continuous treatments are necessary.

ANTICIPATION: Machine Quantum Ant Bait can be deployed to treat the entire colony. This is done by injecting the bait directly into the nest entrance. Under these conditions, the bait will be taken up by the queen(s) and the entire colony. Dead worker ants and a reduction in ant numbers should be noticeable within a few days.

Application of this product in food/feed areas of food/feed handling establishments other than the medication’s instinct. Clean food/feed logically after application. Follow up applications may be needed to achieve effective control.

FIRST AID

If swallowed:

• For medical advice immediately after first aid measures have been taken, call a Poison Control Center or Doctor at 1-800-334-7577 or call 1-800-331-2867. In case of emergency, call toll free the Bayer Environmental Science Customer Service Center at 1-888-273-9593.

• DO NOT give anything by mouth to an unconscious person.

• Have person sip a glass of water if able to swallow.

• Call a Poison Control Center or Doctor immediately for treatment advice.

• Call a Poison Control Center or Doctor for treatment advice.

• Do not induce vomiting unless told to do so by a Poison Control Center or Doctor.

If on skin:

• Rinse skin immediately with plenty of water for 15-20 minutes.

• DO NOT apply water sprays for initial treatment.

• Do not give anything by mouth to an unconscious person.

• If you do not understand the label, find someone to explain it to you in detail.

• Place in areas of known foraging activity, along foraging trails, and into nest sites. A careful inspection around a structure can help identify areas where ants are nesting, actively foraging, or are gaining access to the structure. Place bait near where you observe ants entering the property.

DANGER

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Do not use this product in or on electrical equipment where a possibility of shock hazard exists.

Maxforce® Quantum Ant Bait is a ready-to-use bait formulation for the control of ants, (excluding fire, super-sweet and moisture will be attracted to and controlled by this bait.

FOOD/FEED HANDLING ESTABLISHMENTS:

Application in food/feed areas of food/feed handling establishments other than serving areas is limited to crack and crevice treatment only.

Serving areas are also considered a food/feed area when food is exposed and facility is in operation.

Refer to section below for use directions and restrictions when making applications in food handling establishments.

Indoor Use Directions

For maximum effectiveness, vacuum dust and debris from the area. This is especially important for surfaces, remodeled or exposed areas, cracks and crevices, packing joints, wall crevices, packings, and walls and ceilings. Bait stations may also be placed along fence lines and property lines to intercept foraging ants (ca. 1/4 inch “spots”) in a 100 square foot kitchen in the areas where ants are seen or reported to be foraging.

Application in food/feed areas of food/feed handling establishments is limited to crack and crevice treatment only.

Application of this product in food/feed areas of food/feed handling establishments other than serving areas is limited to crack and crevice treatment only.

FOOD/FEED HANDLING ESTABLISHMENTS:

Application in food/feed areas of food/feed handling establishments is limited to crack and crevice treatment only.

Cautions

Pesticides can affect beneficial insects. Remember insects are part of nature’s balance. Avoid contact with strips, eyes, or clothing. Thoroughly wash with soap and water after handling and before eating, drinking, chewing gum, using tobacco. Remove and wash contaminated clothing before reuse.

Physical or Chemical Hazards

Do not use this product on or in electrical equipment where a possibility of shock hazard exists.

STORAGE AND DISPOSAL
Do not contaminate water, food or feed by storage, disposal, or by cleaning of equipment.
PESTICIDE STORAGE
Store in a cool, dry area out of reach of children.
PESTICIDE DISPOSAL
Waste resulting from the use of this product may be disposed of on site or on approved waste disposal facility.
CONTAINER DISPOSAL
Non-refillable container. Do not reuse or refill this container.

USE RESTRICTIONS
Do not apply in locations that are easily accessible to children and pets. In pet stores and zoos, place bait out of reach of pets and zoo animals.
Do not apply in excessively dusty, damp or greasy locations, and areas which are subjected to routine washing, as bait will be removed by washing.
PROTECT from weather. Never place bait on wet or snow-covered surfaces or in areas of standing water.

Bait can also be applied at trees, stum ps, roots, wood decks, fences, planter boxes, woodpiles, landscaping, and railroad ties where ants may build nests.
