METHYLATED SEED OIL

SPRAY ADJUVANT FOR POST-EMERGENCE APPLICATIONS WITH HERBICIDES

PRINCIPAL FUNCTIONING AGENTS:

Methylated seed oil blend and other
principal functioning agents. 100%
Ingredients exempt from tolerance under 40 CFR 180.

**KEEP OUT OF REACH
OF CHILDREN**

WARNING Causes skin and eye irritation. Harmful if swallowed or if inhaled or in contact with skin. Do not get on skin, in eyes or on clothing.

IF ON SKIN OR CLOTHING: • Take off contaminated clothing. • Rinse skin immediately with plenty of water for 15 to 20 minutes. **IF IN EYES:** • Rinse cautiously with water for 15 to 20 minutes. • Remove contact lenses, if present and easy to do so. Continue rinsing. • If eye irritation persists, get medical attention. **IF SWALLOWED:** Call a poison control center or doctor if you feel unwell. • Rinse mouth.

GENERAL INFORMATION

This product is a spray adjuvant developed to maximize the performance of most post-emergent herbicides. In most postemergence herbicide spray mixes this product may be used as a replacement for non-ionic surfactants and crop oil (petroleum oils). Current research and university testing indicate methylated seed oil improves post-emergence herbicides performance. It may be used in products such as Accent®, Accent Gold®, Assert®, Beyond™, Chopper®, Classic®, Drive®, Equip™, Journey™, Option®, Osprey®, Plateau®, Poast®, Poast Plus®, Pursuit®, Raptor®, Revolver®, Ultra Blazer® and other herbicides.

DIRECTIONS FOR USE

Use this product at 1 TO 4 pints per acre with post emergent herbicides. Higher rates may be necessary for some applications. Always refer to the herbicide labels for additional recommendations or use precautions. Read and follow the label of the herbicide to be used with this product. Always add this product last to the spray mix and continue agitation or follow specific tank filling information on the herbicide label.

ENVIRONMENTAL HAZARDS

Do not contaminate water sources by cleaning of equipment or disposal of wash water.
