Fertility Forward®

Pro Directions For Use SHAKE WELL!

Tank Mixing: Apply at a minimum rate of 6 ounces per 1,000 sq. ft. and a maximum rate of 9 ounces per 1,000 sq. ft. Dilute with enough liquid to cover 1 acre. Do not apply with less than 7:1 dilution with water. Product can be applied as often as every three weeks depending on thatch layer thickness. Product is safe for use on all turf types and ornamental plants.

Product is intended to be used as an additive to current fertilizer program. The mixed product should be agitated prior to and during application.

MIXING WITH FERTILIZERS: N-Ext *D-thatch*™ can be mixed with liquid fertilizers.

Apply in this order: 1) Water, 2) N-Ext *D-thatch*™, 3) Water Soluble or Liquid Fertilizer.

Mixing with Pesticide, Herbicide or Fungicide: N-Ext *D-thatch*™ can be mixed with pesticides, herbicides and fungicides and applied. We recommend the following: Use the product within 24 hours of mixing products (especially with fungicides). Do not over-apply pesticides, herbicides or fungicides as they can have an adverse effect on the populations of soil organisms.

Storage: Store in a cool dry place away from direct sunlight. Product will store for 2 years under warehouse conditions.

Compatibility: These concentrated materials are compatible with most fertilizers and chemicals but should not be mixed directly with other chemicals. Conduct a jar test as needed to ensure compatibility before tank mixing. Mix in spray tanks with water and proper agitation. Apply in accordance with best management practices (BMP's) established by your Cooperative Extension Service. Observe any State or Local fertilizer application regulations.

Caution: Apply only to turf, plants, and soil. If plants are flowering, apply to base of the plant to avoid staining of blooms. This product may stain concrete, wood and other pervious and impervious surfaces.

Keep out of reach of children. If product comes in contact with skin or eyes flush with water immediately.
