Directions for Use: Shake well before each use.

Lightly spray liquid in and around areas you want to protect per chart below.

Do not apply directly to the fruit or vegetable growing on the plant.

IMPORTANT: Use the liquid straight for the first application or two until problem is gone. For maintenance, you can mix a 50/50 ratio with distilled or well water. Do not use chlorinated water, as this will destroy important compounds in the liquid.

PROBLEM *INITIAL APPLICATION MAINTENANCE
