

Attract Rodents, Nuisance Animals and Pests Non-toxic

May remove from pouch for flexible application

For use with snap traps, glue boards, bait stations, or live catch traps

Contains no poison

Great for Eco-friendly IPM

Use NoTox to safely attract or monitor the activity of rodents, nuisance animals and pests in and around, but not limited to: residential, industrial, commercial, agricultural, public, port or terminal facilities.

Application Directions: Determine where attractant is likely to be found and consumed, such as along walls, by gnawed openings, in or beside burrows, in corners and concealed places, between floors or walls. Remove as much alternative food as possible. Place on snap trap, glue board, in a bait station or live-catch trap. Pouches may also be skewered on a wire for placement in hard to reach places. Bait may be removed from the pouch. Discard empty wrapper in the trash. Inspect bait regularly for signs of feeding activity. Replace contaminated or spoiled attractant immediately. Wearing gloves will help prevent scent contamination.

Storage and Disposal: Store in a cool, dry place inaccessible to children and pets. This product is non-toxic and may be disposed of in the trash.
