

CREATED 5/30/2015

REVISED 10/31/2022

VERSION 2.01

# Safety Data Sheet

## 1. PRODUCT AND COMPANY INFORMATION

<b>Product Identifier:</b>	PFI 20-20-20
<b>Recommended uses:</b>	Fertilizer end-use Dry fertilizer for mixing with water for foliar and soil applications.
<b>Restrictions on uses:</b>	None
<b>Manufacturer:</b>	Plant Foods, Inc. PO Box 1089 Vero Beach, FL 32961
<b>Company Telephone/Fax</b>	(772)567-5741 (772)770-0473
<b>Emergency Telephone Number</b>	(800)424-9300 (CHEMTREC)

## 2. HAZARDS IDENTIFICATION

### Classification of the mixture

Reproductive toxicity 2  
 Serious eye damage/irritation 2  
 Skin corrosion/irritation 2

### Hazard statements:

H361 Suspected of damaging fertility or the unborn child  
 H319 Causes eye irritation  
 H315 Causes skin irritation

### Physical Hazards

None

### Label elements

### Hazard Pictograms

### Signal word

Warning

### Precautionary Statements:

P201	Obtain special instructions before use.
P202	Do not handle until all safety precautions have been read and understood.
P280	Wear protective gloves/protective clothing/ eye protection.
P302+P352	IF ON SKIN: Wash with plenty of soap and water.
P305+P351+P338	IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses

if present and easy to do. Continue rinsing.

P308+P313	If exposed or concerned: Get medical advice/attention.
P332+P313	If skin irritation occurs: Get medical advice/attention.
P362	Take off contaminated clothing and wash before reuse.
P405	Store locked up.
P501	Dispose of contents/container according to local/state/federal regulations.

#### Other Hazards

None Known

### 3. Composition/Information on Ingredients

This product is to be considered a mixture/preparation

Substance name	CAS#	Concentration
Potassium nitrate	7757-79-1	5%-50%
Copper EDTA	14025-15-1	.01%-1%
Zinc EDTA	14025-21-9	.1%-1%
Boric Acid	100043-35-3	<2%

\*\*Ingredients not specifically listed are non-hazardous and considered to be confidential business information under 29CFR §1910.1200

### 4. FIRST AID MEASURES

#### Description of First Aid Measures

##### General Information:

In case of persisting adverse effects consult a physician.

Never give anything by mouth to an unconscious person or a person with cramps.

##### In case of inhalation

Remove to fresh air and keep at rest in a position comfortable for breathing

Get medical attention for any breathing difficulty.

##### In case of skin contact

Wash with plenty of soap and water

If skin irritation occurs: Get medical advice/attention.

##### In case of eye contact

Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.

If eye irritation persists: Get medical advice/attention.

##### In case of ingestion

Rinse mouth and drink plenty of water. Do not induce vomiting.

Call a POISON CENTER or doctor/physical if you feel unwell.

##### Most important symptoms and effects, both acute and delayed

The following symptoms may occur:

In case of inhalation	Irritation to respiratory tract Delayed lung effects after short term exposure to thermal degradation products.
In case of skin contact	May cause redness or irritation
In case of eye contact	May cause redness or irritation

In case of ingestion                      Ingestion of large amounts may cause:                      gastrointestinal disturbances

**Indication of any immediate medical attention and special treatment needed**

Treat symptomatically.

## 5. FIRE FIGHTING MEASURES

**Extinguishing media:**

Suitable extinguishing media:                      Use any suitable mean for extinguishing the surrounding fire.

Unsuitable material:                      None, but attention should be paid to compatibility with chemicals surrounding.

**Specific hazards arising from the chemical**

Thermal decomposition can lead to the escape of toxic/corrosive gases and vapors.

Thermal decomposition products: (Nox), nitrites, phosphorous oxides, ammonia and metallic oxides.

**Protective equipment and precautions for firefighters**

Keep upwind of fire. Wear full fire fighting turn-out gear (full Bunker gear) and respiratory protection (self contained breathing apparatus (SCBA)

## 6. ACCIDENTAL RELEASE MEASURES

**Personal precautions**

Provide adequate ventilation. Wear personal protection equipment (Section 8).

**Environmental precautions**

Do not allow to enter into surface water or drains. Ensure waste is collected and contained.

**Methods and material for containment and cleaning up**

Take up mechanically, placing in appropriate containers for disposal and recovery.

Unsuitable material for containment/taking up:                      None specified

**Other Information**

None

## 7. HANDLING AND STORAGE

**Precautions for Safe Handling**

Obtain special instructions before use.

Do not handle until all safety precautions have been read and understood.

Avoid generation of dust.

Provide adequate ventilation.

Wear personal protective equipment.

Wash hands thoroughly after handling.

Do not eat, drink, or smoke when using this product.

**Conditions for safe storage, including any incompatibilities**

Keep/store only in original container

Store in well-ventilated place

Keep container tightly closed

Store locked up.

## 8. EXPOSURE CONTROL/PERSONAL PROTECTION

**Control Parameters:**

Chemical Identity:	CAS#	ACGIH Threshold		OSHA PEL		NIOSH REL	
		TWA	STEL	TWA	STEL	TWA	STEL
Potassium Nitrate	7757-79-1	NDA	NDA	NDA	NDA	NDA	NDA
Boric Acid	10043-35-3	2 mg/m <sup>3</sup>	6 mg/m <sup>3</sup>	NDA	NDA	NDA	NDA

**Engineering controls**

Use exhaust ventilation to keep airborne concentrations below exposure limits.

**Personal Protective Equipment**

Eye/face protection	Chemical goggles required all the time
Skin protection	Nitrile rubber gloves, over 0.11 mm thickness, > 480 min breakthrough time, recommended . Overall
Respiratory Protection	Wear respiratory protection, where airborne concentrations are expected to exceed exposure limits.

**General Hygiene Considerations**

Avoid contact with eyes and skin. Wash hands thoroughly after handling. Do not eat, drink or smoke when using the product.

**9. PHYSICAL AND CHEMICAL PROPERTIES****Information on basic physical and chemical properties**

Appearance	solid, granular
Color	blue
Odor	odorless
Odor Threshold	No Data Available
pH value	No Data Available
Melting point/freezing range	No Data Available
Boiling temperature/ range	No Data Available
Flash point	No Data Available
Vaporization rate	No Data Available
Evaporation rate	No Data Available
Flammable solids	Not flammable
Explosion limits (LEL, UEL)	No Data Available
Vapour pressure	No Data Available
Vapour density	No Data Available
Relative Density	No Data Available
Solubility	>100 g/L at 20° C/68°F (water)
Partition coefficient n-octanol	Not applicable
Auto Ignition temperature	Not applicable
Decomposition temperature	No Data Available
Viscosity	No Data Available
Explosive properties	Not Explosive
Oxidizing properties	Not Oxidizer
Other Information	None

**10. STABILITY AND REACTIVITY****Reactivity**

No hazardous reaction when handled and stored according to provisions.

**Chemical stability**

Stable under normal storage and temperature conditions.

**Possibility of hazardous reactions**

No Data Available

**Conditions to avoid**

No Data Available

**Incompatible materials**

No Data Available

**Hazardous decomposition products**

Thermal decomposition products: Nitrous oxides (Nox), nitrites, phosphorus oxides, ammonia and metallic oxides.

**11. TOXICOLOGICAL INFORMATION**

The following information mostly refers to the major component of the product

**Likely routes of exposure (inhalation, ingestion, skin and eye contact)**

Eye contact, skin contact and inhalation. Exposure by ingestion is not expected to occur through normal industrial or agricultural use.

**Symptoms related to the physical, chemical, and toxicological characteristics**

May be irritant to the respiratory tract. May cause redness or irritation to the skin and eyes. Ingestion of large amounts may cause gastrointestinal disturbances. May cause delayed lung effects after short term exposure or thermal degradation products.

**Information on toxicological effects from short and long term exposure**

There is no data available for the mixture itself.

**Acute toxicity**

Acute oral toxicity	NDA
Acute Estimate for the mixture	>2000 mg/kg bw
Potassium nitrate	>2000 mg/kg bw
Boric Acid	3765 mg/kg bw
Assessment/classification:	Based on available data for the ingredients of the mixture, the classification criteria are not met.

**Skin corrosion/irritation:**

May cause skin irritation

**Serious eye damage/eye irritation:**

May cause eye irritation including redness and inflammation.

**Respiratory or skin sensitization:**

No data available

**Carcinogenicity:**

No data available

**Germ cell mutagenicity**

The product does not contain ingredients classified as germ cell mutagens.

**Reproductive toxicity**

Boric acid has been shown to adversely affect male reproduction in laboratory animals, however, male reproductive effects attributable to boron have not been demonstrated in studies of highly exposed workers.

Based on the available data for ingredients of the mixture, this product is classified and labelled as Presumed human reproductive toxicant, Category 1B, in accordance with Appendix A to 29CFR section 1910-1200.

**Specific target organ toxicity - single or repeated exposure:**

No relevant effect have been observed.

#### Aspiration hazard

Physicochemical data and toxicological information does not indicate and aspiration hazard.

## 12. ECOLOGICAL INFORMATION

There is no data for the mixture itself. The following information mostly refers to the major component of the product.

#### Ecotoxicity

##### Aquatic Toxicity

Potassium nitrate			
96-h LC50	1378 mg/L		<i>poecilia reticulata</i>
24-h EC50	490 mg/L		<i>Daphnia magna</i>
10d EC50	>1700 mg/L		Several algae species
Boric acid			
96-h LC50	74-725 mg B/L		Fish
48-h EC50	45-1376 mg B/L		Aquatic invertebrates
72-h EC50	40 mg B/L		Algae ( <i>pseudokirchneriella subcapitata</i> )

#### Persistence and degradability

The product contains mainly inorganic nitrate and phosphate salts. In aqueous solutions, these salts dissociate into their respective ions. Phosphate ions are finally incorporated into the Phosphorus cycle. Under anoxic conditions, denitrification occurs and nitrate is ultimately converted into molecular nitrogen as part of the Nitrogen cycle.

#### Bioaccumulative potential

Low potential for bioaccumulation based on physicochemical properties of main components.

#### Mobility in soil

The components of this mixture have a low potential for absorption. Portion not taken up by plants, can leach to groundwater.

#### Other adverse effects

Excess nitrate leaching may enrich waters leading to eutrophication.

## 13. DISPOSAL CONSIDERATIONS

Disposal should be in accordance with all local, state, and federal regulations. This product is not listed as a dangerous waste in the Resource Conservation and Recovery Act (RCRA) 40 CFR 261.

It is the responsibility of the waste generator to determine the toxicity and physical properties of the material generated to determine the proper waste disposal method.

## 14. TRANSPORTATION INFORMATION

#### US DOT (49CFR PART 172)

UN-No.	Non dangerous good
UN Proper Shipping Name	Not applicable
Hazard class	Not applicable
Packing group	Not applicable
Hazard label(s)	Not applicable

Special Marking	No
Special provision	No
<b>International Maritime Organization (IMDG Code)</b>	
UN-No.	Non dangerous good
UN Proper Shipping Name	Not applicable
Hazard class	Not applicable
Packing group	Not applicable
Marine pollutant	No
Hazard label(s)	Not applicable
Special Marking	No

**International Civil Aviation Organization (ICAO) and International Air Transport Association (IATA)**

UN-No.	Non dangerous good
UN Proper Shipping Name	Not applicable
Hazard class	Not applicable
Packing group	Not applicable
Hazard label(s)	Not applicable
Special Marking	No
Special provision	No

**Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code**

Not applicable

**Other special precautions**

None

**15. REGULATORY INFORMATION**

**US Federal - OSHA Status:**

SARA Title III Rules

Section 311/312 Hazard Classes

Acute Health Hazard	No
Chronic Health Hazard	Yes (Toxic to reproduction)
Fire Hazard	No
Release of Pressure	No
Reactive Hazard	No

Section 313 Toxic Chemicals

N511 Nitrate compounds (water dissociable; reportable only when in aqueous solution)

Section 302 Extremely Hazardous Substances (EHS)/CERCLA Hazardous Substances

None ingredient is listed.

NFPA 704-2012: National Fire Protection Association

Health	1
Fire	0
Reactivity	0
Special	None

**US State Regulations**

California Proposition 65  
California Code of Regulations Title 22

None ingredient is listed  
see <http://www.dtsc.ca.gov/hazardouswaste/perchlorate/>

(Health &amp; Safety Code), Chapter 33

**State Right to Know Laws**

## Pennsylvania Right to Know Components

	CAS-No.	Revision Date
Potassium nitrate	7757-79-1	03/01/07
Boric Acid	10043-35-3	07/17/09

## Massachusetts Right to Know Components

	CAS-No.	Revision Date
Potassium nitrate	7757-79-1	03/01/07
Boric Acid	10043-35-3	07/17/09

## New Jersey Right to Know Components

	CAS-No.	Revision Date
Potassium nitrate	7757-79-1	03/01/07
Boric Acid	10043-35-3	07/17/09

**Chemical Inventories**

United States TSCA	All ingredients are listed
Canada DSL	All ingredients are listed
European Union (EINECS)	All ingredients are listed
Japan (METI)	All ingredients are listed

**16. OTHER INFORMATION**

Prepared by: Plant Foods, Inc.

Preparation Date: 31-Oct-22
