INDOOR AND OUTDOOR TREATMENTS

CARPENTER ANTS: Locate source of infestation. Inject 5 to 10 sec of product into insect tunnels and cavities. Treat trails, points of entry or exits from voids such as around doors and windows. Treatment of trails on tree trunks or limbs in woods is permitted.

FOR ACTIVE AND Hibernating STAGES OF BOXelder BUGS, ELM LEAF BEETLES, CLUSTER FLIES AND CLOVER Mites: Inject cracks and crevices in walls, floors and ceilings where these insects may be harboring or hibernating. Infested areas include, but are not limited to, cracks and crevices, behind baseboard, wall voids, around window and door frames.

OUTDOOR TREATMENTS

FLYING INSECTS: Treat outside surfaces of screens, doors, window frames or wherever these insects may enter the room. Also treat surfaces around light fixtures on porches, in garages, and other places where insects light or congregate.

Treat normal fly resting areas such as ceilings, upper corners of the room, around windows and doors. Light fixtures and other surfaces known to attract flies. Hold can 1 to 2 ft from target surface and apply at the rate of one 20 oz can/250 to 375 ft² of surface area. Treat so as to lightly moisten the target surface. For best results, initiate treatment at the beginning of the fly season and repeat weekly during periods of heavy fly activity.

MOSQUITO CONTROL OUTDOORS: Treat shrubbery, vegetation and other areas where mosquitoes may rest. Shrubbery and vegetation around stagnant ponds, marshy areas, ponds and shorelines may be treated, but direct application of this product to any body of water is prohibited. Apply at the rate of one 20 oz can/250 to 375 ft² of surface area.

CARPENTER BEES: Locate entrance holes. Inject 5 to 10 sec of product into entrance holes. Seal beehive entrances after application.

PERIMETER TREATMENTS: For clogging insect tunnels, apply to cracks and crevices where insects may enter premises. Areas to be treated include, but are not limited to, weep holes, under siding, weep holes, soffits, around attic vents, cracks and crevices, openings around windows, doors and pipes. Treatment of infested fences and tree holes is permitted.

To help prevent infestation of garages, buildings, treat a band of soil 6 to 10 wide around and adjacent to the building. Also, treat the building foundation to a height of 2 to 3 ft where pests are active and may find entrance. A rate of 10 oz is recommended.

CRAWLING INSECTS: For treatment of localized infestations of these insects in outdoor areas which are landscaped, planted, mulched or maintained, treat infested areas. For ants, wet hills and runways. Treatment of infested fences and tree holes is permitted.

TREATMENT FOR IN GROUND SERVICE BOXES: Ants, Centipedes, Clover Mites, Cockroaches, Crickets, Earwigs, Fire Ants, Millipedes, Scorpions, Silverfish, Spiders, (such as Black Widow and Brown Recluse), Springspots. Use actuator to treat boxes and exposed surfaces. DO NOT contact any electrical wiring or mechanical parts of meter.

STORAGE AND DISPOSAL

DO NOT contaminate water, food or feed by storage or disposal.

PESTICIDE STORAGE: Store in a cool area away from heat or open flame.

PESTICIDE DISPOSAL: Waste resulting from use of this product may be disposed of on site or at an approved waste disposal facility.

CONTAINER DISPOSAL: DO NOT puncture or incinerate. EMPTY container by using the product in accordance with the label directions. Offer empty container for recycling, if available, or place in trash if allowed by state and local regulations. If container is partly full, contact your local solid waste agency for disposal instructions.

Contains no CFOS or other ozone-depleting substances. Federal regulations prohibit CFOS propellants in aerosols.

CONDITIONS OF SALE AND WARRANTY

Follow the Directions for Use. It is impossible to eliminate all risks inherently associated with use of this product, and therefore all such risks shall be assumed by the Buyer. BASF warrants that this product conforms to the chemical description on the label and is reasonably fit for the purpose referred to in the Directions for Use, subject to the inherent risks, referred to above. TO THE EXTENT CONSISTENT WITH APPLICABLE LAW: (A) BASF MAKES NO OTHER WARRANTIES EXPRESS OR IMPLIED, INCLUDING WARRANTIES OF FITNESS FOR PARTICULAR PURPOSE OR MERCHANTABILITY, (B) BUYER’S EXCLUSIVE REMEDY AND BASF’S AND SELLER’S EXCLUSIVE LIABILITY, WHETHER IN CONTRACT, TORT, NEGLIGENCE, STRICT LIABILITY, OR OTHERWISE, SHALL BE LIMITED TO REIMBURSEMENT OF PURCHASE PRICE OF THE PRODUCT, AND (C) BASF AND THE SELLER DISCLAIM ANY LIABILITY FOR CONSEQUENTIAL, INCIDENTAL, SPECIAL OR INDIRECT DAMAGES RESULTING FROM THE USE OR HANDLING OF THIS PRODUCT. BASF and the Seller offer this product, and the Buyer accepts it, subject to these Conditions of Sale and Warranty which may be varied only by agreement in writing signed by a duly authorized representative of BASF.

Est. No. 7969-M0-1

KEEP OUT OF REACH OF CHILDREN CAUTION

FIRST AID

In eyes: Hold eyes open and rinse slowly and gently with water for 15 to 20 min. Remove contact lenses, if present, after the first 5 min, then continue rinsing eyes. Call a poison control center or doctor for treatment advice.

In skin: Wash with plenty of water for 15 to 20 min. Call a poison control center or doctor for treatment advice.

Inhaled: Give plenty of air. If breathing is difficult, give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control center or doctor for treatment advice.

Ingested: Do not give anything by mouth to an unconscious person. Call a poison control center or doctor for treatment advice.

NOTE TO PHYSICIAN:

medical treatment information.

HOTLINE NUMBER

Have the product container or label with you when calling a poison control center or doctor or going for treatment. You may also call 1-800-B3Z-HELP (4357) for emergency medical treatment information.

NOTE TO PHYSICIAN: This product contains petroleum distillate. DO NOT induce vomiting. Osmium may cause an aspiration pneumonia hazard.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION: Harmful if inhaled. Avoid contact with skin, eyes, or clothing. Wash thoroughly with soap and water after handling.

ENVIRONMENTAL HAZARDS

This product is toxic to birds, birds and other wildlife. DO NOT apply directly to water, or to areas where surface water is present or to fish or to p peters. DO NOT contaminate water by cleaning of equipment or disposal of wastes. Apply this product only as specified on this label.

See side panels for additional Precautionary Statements, Directions for Use and Storage and Disposal.

FOOD HANDLING ESTABLISHMENTS

Applications are permitted in both food/feed and non-food/feed areas of food/feed handling establishments as spot or Crack & Crevice treatments. Food/feed handling establishments are defined as places other than private residences in which exposed food/feed is held, processed, prepared or served. Food/feed areas are areas for receiving, storing, stacking, canning, gating, wrapping, boxing), preparing, edible waste storage and enclosed processing systems (mills, dairies, edible oil, syrups) of food. Serving areas where food is exposed and the facility is in operation are also considered food areas.

SPOT AND CRACK & CREVICE APPLICATION:

Apply to classrooms when in use. DO NOT apply to food-handling areas.

DO NOT apply to food-handling areas.

Physical handling establishments are defined as places other than private residences in which exposed food/feed is held, processed, prepared or served. Food/feed areas are areas for receiving, stacking, canning, wrapping, boxing), preparing, edible waste storage and enclosed processing systems (mills, dairies, edible oil, syrups) of food. Serving areas where food is exposed and the facility is in operation are also considered food areas.

DO NOT apply to food-handling areas.
