EPA Est. No. 7969-MO-1

KEEP OUT OF REACH OF CHILDREN

See side panel(s) for Precautionary Statements. Directions for Use, Storage and Disposal and Conditions of Sale and Warranty

HOTLINE NUMBER
Have the product container or label with you when calling a poison control center or doctor or going for treatment. For additional information on this product (including health concerns, medical emergencies or pesticide incidents), you may also call 1-800-832-HELP (4357) 24 hours/day, 7 days/week.

PRECAUTIONARY STATEMENTS

PERSONAL PROTECTIVE EQUIPMENT (PPE) APPLICATORS AND OTHER HANDLERS MUST WEAR: baseline PPE consisting of long-sleeved shirts, long pants and shoes plus socks.

USER SAFETY REQUIREMENTS: Follow manufacturer’s instructions for cleaning/maintaining PPE. If no such instructions for washables exist, use detergent and hot water. Keep and wash PPE separately from other laundry. Remove and wash contaminated clothing before reuse.

ENVIRONMENTAL HAZARDS
This pesticide is toxic to aquatic organisms, birds and wildlife. DO NOT apply directly to water or to areas where surface water is present or intertidal areas below the mean high water mark.

PHYSICAL OR CHEMICAL HAZARDS
Flammable. Contents under pressure. Keep away from heat, sparks and open flame. DO NOT use or incinerate container. Exposure to temperatures above 130°F may cause burning. DO NOT spray directly into any electronic equipment such as radios, televisions, computers, etc., due to the possibility of short circuits or shock hazard. Test on a small surface prior to use, as spray may mar plastic, painted or varnished surfaces.

DIRECTIONS FOR USE
IT IS A VIOLATION OF FEDERAL LAW TO USE THIS PRODUCT IN A MANNER INCONSISTENT WITH ITS LABELING.

USE RESTRICTIONS
• Apply this product only as specified on this label.
• DO NOT compost any discarded plant materials that have been treated with this product.

DO NOT make outdoor applications during rain.
DO NOT apply to treated areas more than 1x every 4 weeks.
DO NOT feed pets or to enter until vapors, mists and/or aerosols have dispersed and the treated area has been thoroughly ventilated. DO NOT contact treated surfaces until dry.
When used in schools, DO NOT apply to classrooms while in use. Allow treated areas to dry thoroughly before reoccupying.
When used in hospitals and nursing homes, not allow patients before treating rooms. Allow treated areas to dry thoroughly before returning patients to rooms.
When used in the home, remove or cover exposed food and drinking water in the treated area before application. Remove or cover dishes, utensils, food processing equipment and food preparation areas. Treat spaces where food will be prepared or stored. DO NOT use in serving areas while food is exposed.
Applications in food areas of food handling establishments are limited to spot and/or crack and crevice treatments. Apply application facility is in operation. Avoid contamination of food or feedstuffs. DO NOT apply directly to food, food packaging or food contact surfaces. During application, cover or remove food and cover food processing surfaces and equipment, or clean after treatment with a suitable detergent and rinse with potable water before use. DO NOT use in serving areas (dining areas where prepared foods are served) while food is exposed or facility is in operation.
Except when applying to sewers or drains as instructed on this label, DO NOT apply directly into sewers or drains or to any area like a gutter where drainage to storm sewers, water bodies, or aquatic habitat can occur.
When used in zoos, remove animals and cover or remove animal food/water prior to application.
Remove pets and cover or remove pet food/water and fish bowls prior to application.

CRACK & CREVICE TREATMENT: Use with the supplied actuator and injection tubes. Inject into cracks and crevices or void spaces where insects may be harboring, living and breeding. Place injector tip into cracks, crevices, holes and other small openings. Release approximately 1 sec of product. For light infestations, move injector tip along cracks while treating at the rate of 3 in 1 ft sec. For heavy infestations, move injector tip along 1 in 1 ft sec. Closed voids, calculate the void’s cubic area and treat at the rate of 1 to 5 sec 3 ft sec. Several holes may be required in long-running voids.

SPORT TREATMENT: Use with the supplied actuator and injection tubes. Hold container upright during spraying. Direct nozzle approximately 12 inches from surface to be treated. Apply directly on insects in these locations when possible. Limit individual spot treatments to an area no larger than 2 ft2/room. Before spot treating on plastic, painted or varnished surfaces, test a small, inconspicuous area and observe for staining or damage to finish.

INDOOR TREATMENTS
CRAWLING PESTS (including Centipedes, Cockroaches, Crickets, Dermestes, Earwigs, Sawbugs and Spiders (excluding Brown Recluse)): Apply as a Crack & Crevice treatment using the prescribed amount into cracks and crevices and void spaces where pests may harbor, nest or forage. To prevent ants from foraging to apply directly to food, food packaging or food contact surfaces. During application, cover or remove food and cover food processing surfaces and equipment, or clean after treatment with a suitable detergent and rinse with potable water before use. DO NOT use in serving areas while food is exposed.

BOOKLICE and SILVERFISH: Apply as a Crack & Crevice treatment into cracks and crevices of baseboards, doors, doorframes, wall voids, around window and door frames, doorframes, behind baseboards, washing machines, stoves, cabinets, sewers, floor drains and meter boxes. Spot treatments may also be made to areas such as garage areas; closets; around water pipes, doors and windows; around refrigerators, cabinets, sinks, stoves and other equipment; shelves and drawers.

BASF Corporation 26 Davis Drive Research Triangle Park, NC 27709

DO NOT apply directly into sewers or drains or to any area like a gutter where drainage to storm sewers, water bodies, or aquatic habitat can occur. When used in zoos, remove animals and cover or remove animal food/water prior to application. Remove pets and cover or remove pet food/water and fish bowls prior to application.

FIRE HOSE: Release approximately 1 to 2 sec of product into the drain basin.

FOOD HANDLING ESTABLISHMENTS
Food handling establishments are places other than private residences in which food is held, processed, prepared or served.

FOOD AREAS: Includes areas for receiving, storage, packing (canning, bottling, wrapping, boxing), preparing, edible waste storage and enclosed processing facilities (e.g., canneries, edible oil, syrup). Serving areas (the food is exposed and facility is in operation) are also considered food areas.
