Product Description

Peraside is a EPA-approved peroxyacetic acid-based sanitizer/disinfectant that is approved to clean poultry & livestock drinking water lines and for use on food-contact surfaces and equipment. Peraside is labeled, and proven effective, against a wide variety of pathogens.

Actives:	Peroxyacetic acid, hydrogen peroxide
Use:	Drinking water lines, food contact surfaces, conveyors and equipment, food processing equipment
Activity:	Bacteria, virus, fungi, algae
Application:	Injection systems, mechanical sprayer, fogging, soaking

How does Peraside work?

Peraside is a strong oxidizing agent that disrupts the cells of microorganisms, effectively killing bacteria, viruses, fungi, and spores after a 60-second exposure. After its application, Peraside breaks down into just oxygen and water — making it the perfect, safe choice for food processing operations of any size.
