

Technical Data Sheet

These goods are considered Articles and are therefore exempt from OSHA Hazard Communications Regulations for Safety Data Sheets.

Technical Data Sheet: TDS-029

Product Identifier: PIG® Blue Absorbent Sock (2048, 4048, MA1097, PIG102, PIG202, PIG203, PIG217, PIG238)

General Use: PIG® Blue Absorbent Sock are highly flexible absorbent socks, primarily designed for confining and absorbing leaks and spills around machinery, drums, etc. PIG® Blue Absorbent Sock is a non-selective absorbent, designed to absorb and contain oils, water and non-aggressive fluids.

Composition: Skin/Filler

CAS: 9003-07-0	Polypropylene	>99%
CAS: 25038-59-9	Polyester stitching	<1%
CAS: 1318-00-9	Magnesium Aluminosilicate (Vermiculite-asbestos free)	>98%
CAS: 14808-60-7	Silica	~1%

Storage Recommendations: Store in a cool, dry environment. Avoid long-term contact with direct or reflected sunlight or other sources of UV light, such as high- intensity lighting.

Shelf Life: Indefinitely, provided Storage Recommendations are observed.

Personal Protective Equipment (PPE):

Gloves: Not Normally Required. However, cloth, canvas, leather or rubber gloves are a good industrial practice.

Eyes: Safety goggles or glasses with side shields if dust is present and as a good industrial practice.

Fire Control Measures: Unused Form: Water, Foam or carbon dioxide

Used Form: Extinguishing agents appropriate for absorbed liquid

Physical Properties:

pH:	Not Applicable
Melting Point:	2372°F (1300°C)
Initial Boiling Point and Range:	Not Applicable
Flash Point: Non-flammable	Method: NA
Relative Density (H ₂ O = 1):	7 lbs./cu ft (0.112 g/cc)
Solubility in Water (25°C):	negligible
Auto-ignition Temperature:	Not Established

Stability & Reactivity:

Conditions of Reactivity:	Not Available
Incompatible Materials:	Product May be affected by Acids, Bases, Oxidizing or Reducing Agents
Conditions to Avoid:	None
Hazardous Decomposition:	Will Not Occur

Waste Disposal: This material is NOT defined as hazardous by the Resource Conservation and Recovery Act. It is the product user's responsibility to determine at the time of disposal whether a material containing the product or derived from the product should be classified as a hazardous waste.
