

LOOKOUT

Monitor/trap for roaches & common household crawling insects

Pre-baited, Ready to Use

Use Pro-Pest Lookout monitor/trap to pinpoint infestations.

Highly effective, specially formulated attractant impregnated into the glue for common household crawling insects.

Black interior is designed to take advantage of roaches & other crawling insects preferring dark places for harborage.

Lookout monitor/traps are manufactured with heavy-duty card board.

Discreet. Slides easily under equipment, under and behind furniture, in cabinets & drawers, along baseboards, etc.

Ramps on both ends, **before and after separation** of traps. Use ramps flat or form entry ramps at a 45° slope.

Perforated to easily separate into two single traps or use as one larger trapping area.

Printed chart on bottom of trap for easy record keeping.

Easy to follow directions printed on bottom of trap.
