

FOR THE EFFECTIVE CONTROL OF RATS AND MICE

DIRECTIONS FOR USE:
DO NOT ALLOW PET MICE, GERBILS, HAMSTERS, GUINEA PIGS, OR OTHER PET RODENTS TO COME IN CONTACT WITH THIS PRODUCT. DO NOT PLACE BAIT IN AREAS ACCESSIBLE TO CHILDREN.

Keep box for complete directions for use.

INDOOR USE: Prior to treatment, all likely food sources must be removed or made unavailable to rats and mice. Place bait Throw Packs at bait points where there are signs of rat or mouse activity, such as fresh droppings, inside or near rat or mouse runs and feeding areas. Place RatX Throw Packs approximately 6 feet apart throughout the infested area. Protect Throw Packs from non-target animals and from water. Inspect Throw Packs frequently and replace eaten Throw Packs, or those which become wet, and re-site in a dry location. Replace bait Throw Packs until there are no more takes for 48 hours.

OUTDOOR USE: Place bait Throw Packs where there are signs of rat or mouse activity, like fresh droppings or near burrows, runways, feeding places and at points of entry around the perimeter of buildings. Place Throw Packs in drainpipes, open-ended boxes or under sheets of metal or wood, secured at an angle against a wall to keep the bait points dry, at intervals of approximately 6 feet, reducing to 4 feet in areas of high infestation. Protect Throw Packs from water as the bait must be kept dry. Protect bait Throw Packs from non-target animals. Inspect bait Throw Packs frequently and replace any bait Throw Packs that have been eaten or have become wet and re-site in a dry location. Replenish Throw Packs when empty until there are either no more takes or no rat or mouse activity for 48 hours.

POST TREATMENT: When handling, always use rubber gloves. Remove all remains of bait and bait Throw Packs after treatment and dispose of safely. Apply household disinfectants or bleach solutions at recommended concentrations and contact time to dead rats or mice, rat or mouse droppings, nests and surrounding area. Clean the area thoroughly with paper towels or a mop. Place dead rats or mice and soiled paper towels in a plastic bag and seal tightly. Place sealed bag into a second plastic bag and seal tightly. Dispose of bags into a covered trash can that is routinely emptied. Dispose of gloves when finished and thoroughly wash hands with soap and water.

STORAGE AND DISPOSAL: Store only in original container in a cool, dry place inaccessible to children and pets. Do not reuse empty containers. Offer for recycling if available or discard in trash.

FIRST AID: If swallowed, rinse mouth thoroughly. Drink plenty of water. Do not induce vomiting.

This product is exempt from registration under the Federal EPA under section 25(b) of FIFRA, and as such, is not registered with the Environmental Protection Agency. ConSeal International, Inc. represents that this product and its ingredients qualify for exemption from registration under FIFRA.
