SAFETY DATA SHEET

issue: -

issue: 06/09/2022

Shatter®

| Version | Revision Date: | SDS Number: | Date of last i |
|---------|----------------|--------------|----------------|
| 1.0 | 06/09/2022 | 800080004666 | Date of first |

Corteva Agriscience[™] encourages you and expects you to read and understand the entire SDS as there is important information throughout the document. This SDS provides users with information relating to the protection of human health and safety at the workplace, protection of the environment and supports emergency response. Product users and applicators should primarily refer to the product label attached to or accompanying the product container. This Safety Data Sheet adheres to the standards and regulatory requirements of the United States and may not meet the regulatory requirements in other countries.

SECTION 1. IDENTIFICATION

Product name : Shatter®

Manufacturer or supplier's details

COMPANY IDENTIFICATION

| Manufacturer/importer | : | CORTEVA AGRISCIENCE LLC 9330 ZIONSVILLE RD INDIANAPOLIS, IN, 46268-1053 UNITED STATES |
|-----------------------|---|--|
| Customer Information | : | 800-992-5994 |
| E-mail address | : | customerinformation@corteva.com |
| Emergency telephone | : | INFOTRAC (CONTRACT 84224). |
| | | 800-992-5994 or 317-337-6009 |
| | | |

Recommended use of the chemical and restrictions on use

Recommended use : End use insecticide product

SECTION 2. HAZARDS IDENTIFICATION

GHS classification in accordance with the OSHA Hazard Communication Standard (29 CFR 1910.1200)

Not a hazardous substance or mixture.

GHS label elements

Not a hazardous substance or mixture.

Other hazards

None known.

SECTION 3. COMPOSITION/INFORMATION ON INGREDIENTS

Substance / Mixture : Mixture

| Components | | | | | | |
|---|------------|-----------------------|--|--|--|--|

| Notes to physician | | : No specific anti Treatment of ex symptoms and Have the Safety tainer or label w | No specific antidote. Treatment of exposure should be directed at the control of symptoms and the clinical condition of the patient. Have the Safety Data Sheet, and if available, the product container or label with you when calling a poison control center or doctor, or going for treatment. | | | | | |

SECTION 5. FIRE-FIGHTING MEASURES

| Suitable extinguishing media | : | Water spray Alcohol-resistant foam | |
|--|---|---|--|
| Unsuitable extinguishing media | : | Dry chemical | |
| Specific hazards during fire fighting | : | Exposure to combustion products may be a hazard to health. Applying foam will release significant amounts of hydrogen gas that can be trapped under the foam blanket. | |
| Hazardous combustion prod- ucts | : | During a fire, smoke may contain the original material in addi- tion to combustion products of varying composition which may be toxic and/or irritating. | |
| | | Combustion products may include and are not limited to: Carbon oxides Nitrogen oxides (NOx) Hydrogen fluoride Hydrogen chloride gas | |
| Specific extinguishing meth- ods | : | Do not allow extinguishing medium to contact container con- tents. Most fire extinguishing media will cause hydrogen evo- lution, and once the fire is put out, may accumulate in poorly ventilated or confined areas and result in flash fire or explo- | |

| | ecial protective equipment fire-fighters | : Wear self-con essary. | ntained breathing apparatus for firefighting if nec- | | | | |

SECTION 6. ACCIDENTAL RELEASE MEASURES

| Personal precautions, protec- tive equipment and emer- gency procedures | : | Avoid dust formation. Use appropriate safety equipment. For additional information, refer to Section 8, Exposure Controls and Personal Protection. |
|---|---|---|
| Environmental precautions | : | Discharge into the environment must be avoided. Prevent further leakage or spillage if safe to do so. Retain and dispose of contaminated wash water. Local authorities should be advised if significant spillages cannot be contained. |
| Methods and materials for containment and cleaning up | : | Local or national regulations may apply to releases and dis- posal of this material, as well as those materials and items employed in. Pick up and arrange disposal without creating dust. Recovered material should be stored in a vented container. The vent must prevent the ingress of water as further reaction with spilled materials can take place which could lead to over- pressurization of the container. Sweep up and shovel. Keep in suitable, closed containers for disposal. Sweep up or vacuum up spillage and collect in suitable con- tainer for disposal. See Section 13, Disposal Considerations, for additional infor- mation. |

SECTION 7. HANDLING AND STORAGE

| ļ | Advice on safe handling | : | Handle in accordance with good industrial hygiene and safety practice. Smoking, eating and drinking should be prohibited in the application area. Take care to prevent spills, waste and minimize release to the environment. Use appropriate safety equipment. For additional information, refer to Section 8, Exposure Controls and Personal Protection. |
|---|-----------------------------|---|---|
| (| Conditions for safe storage | : | Store in a closed container. |

| | | fraction) | | | | |
| Engineering measures : | maintain airbo guidelines. If ments or guid for most oper Local exhaus tions. | Use local exhaust ventilation, or other engineering controls to maintain airborne levels below exposure limit requirements or guidelines. If there are no applicable exposure limit require- ments or guidelines, general ventilation should be sufficient for most operations. Local exhaust ventilation may be necessary for some opera- tions. | | | | |
| Personal protective equipment | t | | | | | |
| Respiratory protection : | : Respiratory protection should be worn when there is a poter tial to exceed the exposure limit requirements or guidelines. If there are no applicable exposure limit requirements or guidelines, wear respiratory protection when adverse effects such as respiratory irritation or discomfort have been experi- enced, or where indicated by your risk assessment process. For most conditions, no respiratory protection should be needed; however, in dusty atmospheres, use an approved particulate respirator. | | | uidelines. hts or se effects, en experi- process. Id be | | |
| Hand protection | | | | | | |
| Remarks : | : Use gloves chemically resistant to this material when pro- longed or frequently repeated contact could occur. Examples of preferred glove barrier materials include: Polyvinyl chloride ("PVC" or "vinyl"). Neoprene. Nitrile/butadiene rubber ("nitrile" or "NBR"). NOTICE: The selection of a specific glove for a particular application and duration of use in a workplace should also take into account all relevant workplace factors such as, but not limited to: Other chemicals which may be handled, physical requirements (cut/puncture protection, dexterity, thermal protection), potential body reactions to glove materials, as well as the instructions/specifications | | | | | |

per single or inner packaging of 5 KG or less for solids may be transported as non-dangerous goods as provided in section 2.10.2.7 of IMDG code, IATA Special provision A197, and ADR/RID special provision 375.

Special precautions for user

The transport classification(s) provided herein are for informational purposes only, and solely based upon the properties of the unpackaged material as it is described within this Safety Data Sheet. Transportation classifications may vary by mode of transportation, package sizes, and variations in regional or country regulations.

SECTION 15. REGULATORY INFORMATION

| SARA 311/312 Hazards | : | No SARA Hazards |
|----------------------|---|---|
| SARA 313 | : | This material does not contain any chemical components with known CAS numbers that exceed the threshold (De Minimis) reporting levels established by SARA Title III, Section 313. |

US State Regulations

Pennsylvania Right To Know

Cellulose

9004-34-6

California Prop. 65

WARNING: This product can expose you to chemicals including toluene, which is/are known to the State of California to cause birth defects or other reproductive harm. For more information go to www.P65Warnings.ca.gov.

The ingredients of this product are reported in the following inventories:

TSCA : Product contains substance(s) not listed on TSCA inventory.

TSCA list

No substances are subject to a Significant New Use Rule.

No substances are subject to TSCA 12(b) export notification requirements.

Federal Insecticide, Fungicide and Rodenticide Act

EPA Registration Number : 62719-272

This chemical is a pesticide product registered by the Environmental Protection Agency and is subject to certain labeling requirements under federal pesticide law. These requirements differ from the classification criteria and hazard information required for safety data sheets, and for workplace labels of non-pesticide chemicals. Following is the hazard information as required on the pesticide label:
