SKUNK SCRAM

PROFESSIONAL™

EASY APPLICATION INSTRUCTIONS

APPLY USING A ROTARY SPREADER - RECOMMENDED SPREADER SETTING IS 60%.

STARTING FROM THE CENTER PORTION OF THE DAMAGE, spread the repellent in a circular pattern away from the damage. You will notice in 3-4 days no additional damage and may notice more activity outside the perimeter of the applied repellent. Repeat application towards the direction in which you want the skunks to exit the property.

AROUND HOMES, SHEDS & STRUCTURES: Apply a 20 inch band along the foundation so that you may visibly see the repellent.

UNDER DECKS, CRAWL SPACES & OTHER HIDDEN AREAS: Skunks may nest under hard to get areas. Put a golf ball size of Skunk Scram™ in a small nylon or cheese cloth bag & throw under the structure. Once you feel they have vacated the area, apply outside the perimeter to keep them out.

REAPPLY Repeat in 10 days and then again in 30 to ensure they have left the area. May have to reapply after heavy rainfalls.

ALL SEASON USE! Each application of Skunk Scram™ should last 30 days including normal rainfall or irrigation.

DO NOT USE on food or feed crops. Do not apply directly to water.

FOR OUTDOOR USE ONLY.

◀ **SCAN HERE FOR DETAILED INSTRUCTIONS**

PRECAUTIONARY STATEMENTS: Wash skin after use. Avoid contact with eyes or cuts. If in eyes, flush with water for 15-20 minutes. Call Poison Center or doctor for treatment. **STORAGE:** Store in original sealed container away from direct sunlight or excessive heat. Do not contaminate water by storage or disposal. **DISPOSAL:** Do not reuse empty container. Dispose of properly. Buyer assumes all responsibility for safety & use not in accordance with directions. EPIC represents that this product qualifies for exemption from EPA registration under Section 25(b) of FIFRA and has not been registered by the EPA. **PR6002-20J**

CAUTION: KEEP OUT OF REACH OF CHILDREN
