DIRECTIONS FOR USE

Precaution: Turf Fuel 6-0-0 is a highly concentrated material. Exercise precautions to prevent potential plant injury or soil media pH changes. If applying Turf Fuel 6-0-0 in combination with other materials, a compatibility test is recommended to avoid potential incompatibilities. Prior to the addition of Turf Fuel 6-0-0 to a spray mix, the user or application advisor must have experience with the combination or should have conducted a phytotoxicity trial. Staining is greatly reduced due to the high degree of chelation of the product but cannot always be guaranteed because of rate used or surface applied to.

APPLICATION RATE COMMENTS

COOL SEASON TURF: Tees, greens, approaches

3 lbs. to 9 lbs. per acre or 1.1 to 3.3 dry oz. per 1,000 sq. ft.

During periods of active growth periods, apply every 14 to 21 days in a minimum of 1.5 gallons of water / 1,000 sq. ft.

WARM SEASON TURF

3 lbs. to 9 lbs. per acre or 1.1 to 3.3 dry oz / 1,000 sq. ft.

During growth periods, apply every 14 to 21 days in spring to fall. For the remainder of the year apply every 30 days. Apply a minimum of 1.5 gallons of water / 1,000 sq. ft.

Agricultural Crop uses:

Spray apply 3 to 9 pounds per acre to crop/soil depending upon crop nutrient demand

3 lbs. To 9 lbs. per acre

Incorporable through drip tape and irrigation systems

During cool, wet weather, apply every 30 days. Every 21 days during active growth periods. Apply in a minimum of 50 gallons of water/acre for foliar or soil applications

Horticulture use - general nursery and greenhouse plant application, soil and tree soil injection or trunk drench

3 lbs. to 9 lbs. per 100 gallons of spray solution applied to runoff or soil injected

Or 1.1 to 3.3 oz. per gallon of drench solution, at root flare use 5 gallons minimum per tree

Spray apply with good coverage in 100 gallons of water to runoff assuring good coverage or soil injected around drip line Trunk drench 1 to 3.3 oz per gallon of drench solution apply at root flare

GROUND APPLICATION

MIXING INSTRUCTIONS

Prior to any fertilizer or pesticide application, all spray mixing and application equipment must be cleaned. Fill spray tank or mix tank one half of water and begin

CONDITIONS OF SALE

LIMITED WARRANTY AND LIMITATIONS OF LIABILITY AND REMEDIES

The directions on this label are believed to be reliable and should be followed carefully. Insufficient performance, performance below expectations, or injury to crops alleged to be the result of Turf Fuel 6-0-0 is the result of extraordinary or unusual weather conditions or failure to follow the directions, or good agricultural practices, all of which are beyond the control of Quest Products Corp. (the Company) or seller. In addition, failure to follow label directions may cause injury to crops or animals. The Company warrants that this product conforms to the chemical description on the label and is reasonably fit for the purpose referred to in the directions for use, subject to the factors noted above which are beyond the control of the Company. The Company makes no other warranties or representations of any kind, express or implied. Concerning the product, no warranty shall be implied by law, nor is there any implied warranty regarding merchantability or fitness for any particular purpose. The exclusive remedy against the Company for any cause of action relating to the handling or use of this product is a claim for damage and in no event, shall damages or any other recovery of any kind against the Company exceed the price of the product which causes the alleged loss, damage, injury, or other claim. The Company shall not be liable, and any and all claims against the Company are waived for special, indirect, incidental, or consequential damages or expenses of any kind, including, but not limited to, loss of profits or income. The Company and the seller offer this product, and the buyer and user accept it, subject to the foregoing conditions of sale and limitation of warranty, liability, and remedies.

Non Staining Micro Nutrients

STORAGE AND DISPOSAL

Store in a cool, dry area, out of reach of children and livestock. Keep container tightly closed. Do not contaminate water sources by cleaning of equipment or disposal of spray waste. Dispose of empty containers in accordance with applicable local, state and federal regulations.

GENERAL INFORMATION

Turf Fuel 6-0-0 is formulated fertilizer treatment for color deficiency in turf, horticulture, arboriculture that contains various nutrient chelates and other plant signaling compounds. This product is intended to be used as a supplement to a well-balanced fertilizer program. It is not intended to be a substitute for sound soil fertilization and conventional cultural practices. For additional information on product or if you are unfamiliar with the application methods, contact Quest Products Corporation or your Quest distributor.

For Florida: we recommend that you follow Green Industries BMP’s at: http://www.dep.state.fl.us/water/nonpoint/doc/nonpoint/glfbmp07.pdf
For Florida: we recommend that you follow the Golf Course BMP’s at: http://www.dep.state.fl.us/water/nonpoint/doc/nonpoint/golfbmp07.pdf

Turf Fuel 6-0-0 is specifically formulated for the management of all turfgrasses, horticultural and arboricultural plants. The product contains nutrients that have been proven to aid and assist in the maintaining of color and growth of turfgrasses, horticultural and agricultural plant cultivars and the growth and maintenance of soil “VAM”, Vesicular Arbuscular Mycorrhiza. The product also contains soil and foliage penetrating surfactant uptake systems to enhance both soil movement and foliage uptake.

PRECAUTIONARY STATEMENTS - CAUTION

BEFORE USING THIS PRODUCT, READ ALL PRECAUTIONS, DIRECTIONS FOR USE, CONDITIONS OF SALE-LIMITED WARRANTY AND LIMITATIONS OF LIABILITY AND REMEDIES

May cause eye or skin irritation. May be harmful if ingested. Avoid skin and eye contact. Wear suitable gloves and face shield when handling this product. Avoid contact with or inhalation of the spray mist. Do not apply this product in such a manner as to directly expose workers or other persons. If product is being mixed with pesticides and/or spray adjuvants, follow all precautionary statements on the accompanying product’s labeling.

What To Do In Case Of Contact:

If Swallowed: If conscious, give milk or water to drink. Immediately call a doctor.

Eye Contact: Flush eyes with clean water for 15 minutes, holding eyelids open.

Obtain medical attention immediately.

Skin Contact: Remove contaminated clothing and wash skin thoroughly with soap and water. Obtain medical attention immediately.

If Inhaled: Move to fresh air and call a doctor if irritation develops or persists.

If there is contact made with the spray solution containing pesticides and/or spray adjuvants, follow the “Statement of Practical Treatment” on the product’s labeling.
