# 2. HAZARDS IDENTIFICATION

**Emergency Overview** 

### Classification

This chemical is considered hazardous by the 2012 OSHA Hazard Communication Standard (29 CFR 1910.1200)

Skin sensitization

Category 1

### **GHS Label elements, including precautionary statements**

Signal word

Warning

U

# Hazard Statements May cause an allergic skin reaction Image: Comparison of the state st

### **Precautionary Statements - Prevention**

Avoid breathing dust/fume/gas/mist/vapors/spray Contaminated work clothing should not be allowed out of the workplace Wear protective gloves

### **Precautionary Statements - Response**

Specific treatment (see supplemental first aid instructions on this label)

### Skin

IF ON SKIN: Wash with plenty of soap and water If skin irritation or rash occurs: Get medical advice/attention Wash contaminated clothing before reuse

### **Precautionary Statements - Storage**

None

### **Precautionary Statements - Disposal**

Dispose of contents/container to an approved waste disposal plant

### Hazards not otherwise classified (HNOC)

Not applicable

### Unknown Toxicity

70% of the mixture consists of ingredient(s) of unknown toxicity

### **Other information**

Repeated or prolonged skin contact may cause allergic reactions with susceptible persons

### Interactions with Other Chemicals

No information available.

# 3. COMPOSITION/INFORMATION ON INGREDIENTS

| Chemical Name | CAS No.   | Weight-% | Trade Secret |
|---------------|-----------|----------|--------------|
| Paraffin oils | 8012-95-1 | 15 - 40  | *            |
| Rubber        | 9006-04-6 | 10 - 30  | *            |
| ****          |           |          |              |

The exact percentage (concentration) of composition has been withheld as a trade secret

Odor Odorless

# 4. FIRST AID MEASURES

### First aid measures

| General Advice | Show this safety data sheet to the doctor in attendance.                                                                             |
|----------------|--------------------------------------------------------------------------------------------------------------------------------------|
| Eye Contact    | Rinse thoroughly with plenty of water, also under the eyelids. If symptoms persist, call a physician.                                |
| Skin Contact   | Wash with soap and water. May cause an allergic skin reaction. In the case of skin irritation or allergic reactions see a physician. |
| Inhalation     | Remove to fresh air.                                                                                                                 |
| Ingestion      | Rinse mouth immediately and drink plenty of water. Never give anything by mouth to an unconscious person.                            |
|                |                                                                                                                                      |

### Most important symptoms and effects, both acute and delayed

Most Important Symptoms and Itching. Rashes. Hives. Effects

### Indication of any immediate medical attention and special treatment needed

Notes to Physician

May cause sensitization of susceptible persons. Treat symptomatically.

### 5. FIRE-FIGHTING MEASURES

### Suitable Extinguishing Media

Use extinguishing measures that are appropriate to local circumstances and the surrounding environment.

### Unsuitable extinguishing media

CAUTION: Use of water spray when fighting fire may be inefficient.

### Specific Hazards Arising from the Chemical

Product is or contains a sensitizer. May cause sensitization by skin contact.

Uniform Fire Code

Sensitizer: Solid

Hazardous Combustion Products Carbon oxides.

Explosion Data Sensitivity to Mechanical Impact No.

Sensitivity to Static Discharge No.

### Protective equipment and precautions for firefighters

As in any fire, wear self-contained breathing apparatus pressure-demand, MSHA/NIOSH (approved or equivalent) and full protective gear.

# 6. ACCIDENTAL RELEASE MEASURES

### Personal precautions, protective equipment and emergency procedures

| Personal Precautions                      | Avoid contact with eyes. Use personal protective equipment as required.                                                                                                                                                                    |
|-------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Other Information                         | Refer to protective measures listed in Sections 7 and 8.                                                                                                                                                                                   |
| Environmental Precautions                 |                                                                                                                                                                                                                                            |
| Environmental Precautions                 | Refer to protective measures listed in Sections 7 and 8. Prevent further leakage or spillage if safe to do so.                                                                                                                             |
| Methods and material for containm         | ent and cleaning up                                                                                                                                                                                                                        |
| Methods for Containment                   | Prevent further leakage or spillage if safe to do so.                                                                                                                                                                                      |
| Methods for cleaning up                   | Pick up and transfer to properly labeled containers.                                                                                                                                                                                       |
|                                           |                                                                                                                                                                                                                                            |

# **10. STABILITY AND REACTIVITY**

### **Reactivity**

No data available.

### Chemical stability

Stable under recommended storage conditions.

# Possibility of Hazardous Reactions

None under normal processing.

### **Hazardous Polymerization**

Hazardous polymerization does not occur.

### Conditions to avoid

None known based on information supplied.

### Incompatible materials

None known based on information supplied.

### **Hazardous Decomposition Products**

Carbon oxides.

# **11. TOXICOLOGICAL INFORMATION**

### Information on likely routes of exposure

| Product Information |                                                                                                                                                                                    |
|---------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Inhalation          | Specific test data for the substance or mixture is not available.                                                                                                                  |
| Eye Contact         | Specific test data for the substance or mixture is not available.                                                                                                                  |
| Skin Contact        | Specific test data for the substance or mixture is not available. Repeated or prolonged skin contact may cause allergic reactions with susceptible persons. (based on components). |
| Ingestion           | Specific test data for the substance or mixture is not available.                                                                                                                  |

### Component Information

| Chemical Name | Oral LD50 | Dermal LD50 | Inhalation LC50      |
|---------------|-----------|-------------|----------------------|
| Paraffin oils | -         | -           | = 2062 ppm (Rat) 4 h |

### Information on toxicological effects

Symptoms

Itching. Rashes. Hives.

### Delayed and immediate effects as well as chronic effects from short and long-term exposure

| Sensitization     | May cause sensitization of susceptible persons. May cause sensitization by skin contact. |
|-------------------|------------------------------------------------------------------------------------------|
| Mutagenic Effects | No information available.                                                                |

### Carcinogenicity

The table below indicates whether each agency has listed any ingredient as a carcinogen.

| Chemical Name                                                                   | ACGIH                                                        | IARC                                                                       | NTP      | OSHA |

### Numerical measures of toxicity Product Information

### The following values are calculated based on chapter 3.1 of the GHS document Not applicable

# **12. ECOLOGICAL INFORMATION**

### **Ecotoxicity**

The environmental impact of this product has not been fully investigated.

### Persistence and Degradability

No information available.

### **Bioaccumulation**

No information available

### Other adverse effects

No information available.

# **13. DISPOSAL CONSIDERATIONS**

### Waste treatment methods

| Disposal methods       | This material, as supplied, is not a hazardous waste according to Federal regulations (40 CFR 261). This material could become a hazardous waste if it is mixed with or otherwise comes in contact with a hazardous waste, if chemical additions are made to this material, or if the material is processed or otherwise altered. Consult 40 CFR 261 to determine whether the altered material is a hazardous waste. Consult the appropriate state, regional, or local regulations for additional requirements. |
|------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Contaminated Packaging | Dispose of contents/containers in accordance with local regulations.                                                                                                                                                                                                                                                                                                                                                                                                                                            |

# **15. REGULATORY INFORMATION**

### International Inventories

TSCA DSL Complies All components are listed either on the DSL or NDSL.

**TSCA** - United States Toxic Substances Control Act Section 8(b) Inventory **DSL/NDSL** - Canadian Domestic Substances List/Non-Domestic Substances List

## US Federal Regulations

### <u>SARA 313</u>

Section 313 of Title III of the Superfund Amendments and Reauthorization Act of 1986 (SARA). This product does not contain any chemicals which are subject to the reporting requirements of the Act and Title 40 of the Code of Federal Regulations, Part 372

| SARA 311/312 Hazard Categories    |     |
|-----------------------------------|-----|
| Acute Health Hazard               | Yes |
| Chronic Health Hazard             | No  |
| Fire Hazard                       | No  |
| Sudden release of pressure hazard | No  |
| Reactive Hazard                   | No  |

### CWA (Clean Water Act)

This product does not contain any substances regulated as pollutants pursuant to the Clean Water Act (40 CFR 122.21 and 40 CFR 122.42)

### **CERCLA**

This material, as supplied, does not contain any substances regulated as hazardous substances under the Comprehensive Environmental Response Compensation and Liability Act (CERCLA) (40 CFR 302) or the Superfund Amendments and Reauthorization Act (SARA) (40 CFR 355). There may be specific reporting requirements at the local, regional, or state level pertaining to releases of this material

### US State Regulations

### California Proposition 65

This product does not contain any Proposition 65 chemicals.

### U.S. State Right-to-Know Regulations
