Set trap by squeezing the back side as shown. While baiting isn't required, the use of Tomcat® Attractant Gel is recommended. Place a small pencil eraser-sized amount of attractant onto the back of the yellow trigger.

Place trap perpendicular to walls or other objects in areas with evidence of mouse activity. For best results, place between a mouse's nesting place and food source.

For mouse disposal, just squeeze the back of the trap... your hands never touch the mouse. Now it's set and ready to be used again.

HOW TO USE

Our patented design makes the Tomcat® Mouse Trap one of the safest, cleanest, easiest to use traps available today. And it's guaranteed* effective.

KILLS MICE
