INSECTICIDE

For Pest Control Operators and Commercial Use Only
• Contains Fipronil
• Controls Imported Fire Ants Solenopsis spp.
• Easy and Quick to Apply
• Ready to Use
• Season Long Control of Imported Fire Ants Solenopsis spp.
• Guaranteed to Work or Money Back
• Up to One Year Control of Imported Fire Ants Solenopsis spp.

ACTIVE INGREDIENT:
Fipronil: 5-amino-1-(2,6-dichloro-4-(trifluoromethyl) phenyl)-4-((1,R,S)-(trifluoromethyl)sulfinyl) -1-H-pyrazole-3-carbonitrile ............................................... 0.0143%
OTHER INGREDIENTS .................................................................................. 99.9857%
TOTAL: ........................................................................................................ 100.0000%

EPA Reg. No. 432-1217 EPA Est. No. 67572-GA-1

KEEP OUT OF REACH OF CHILDREN

FIRST AID

If on skin or clothing:
• Take off contaminated clothing.
• Rinse skin immediately with plenty of water for 15-20 minutes.
• Call a poison control center or doctor for treatment advice.

If swallowed:
• Call a poison control center or doctor immediately for treatment advice.
• Have a person sip a glass of water if able to swallow.
• Do not induce vomiting unless told to do so by a poison control center or doctor.
• Do not give anything by mouth to an unconscious person.

If in eyes:
• Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.
• Call a poison control center or doctor for treatment advice.

Have the product container or label with you when calling a poison control center or doctor or going for treatment.

NOTE TO PHYSICIAN: There is no specific antidote. All treatment should be based on observed signs and symptoms of distress in the patient.

USER SAFETY RECOMMENDATIONS
Users should wash hands before eating, drinking, chewing gum, using tobacco, or using the toilet. Remove clothing immediately if pesticide comes in contact with the skin. Wash the outside of gloves before removing. As soon as possible, wash thoroughly and change into clean clothing.

ENVIRONMENTAL HAZARDS
This product is toxic to aquatic and estuarine wildlife (fish, aquatic and estuarine wildlife). Do not apply directly to water or to areas where water is present or to intermittent areas below the high water mark. Runoff from treated areas may be hazardous to aquatic or estuarine areas in neighboring areas. Cover or remove clean up materials that are spilled. Do not contaminate water when disposing of equipment washwater or rinsate. Do not apply within 15 feet of bodies of water: lakes, reservoirs, rivers, permanent streams, marshes, natural ponds, and commercial fish ponds. A 15 foot buffer of uniform groundcover must exist between application zones and bodies of water (uniform ground cover is defined as land covered with vegetation of uniform height of 2 inches or greater). Do not apply within 60 feet of estuarine bodies of water. Estuarine bodies of water are brackish, tidal water such as bays, mudflats, sandy beaches, salt marshes, and mangrove swamps.
In order to reduce risk to birds, ensure that the application is spread over the treated area.

PLANT APPLICATIONS
Do not use this product within 500 feet of areas occupied by the threatened Florida scrub jay, whose range overlaps with the USDA APHIS Quarantine area. Avoid application to corn, cotton, soybeans, tomatoes, or potatoes. Do not apply to soil or surface water near treated areas.

Agricultural Use Requirements
The requirements in this box apply to uses of this product that are not within the scope of the Worker Protection Standard (WPS). Applicators, mixers, loaders, and persons cleaning equipment shall wear appropriate protective clothing and use appropriate equipment during application and cleaning. Avoid contact with eyes, skin, and clothing. Wash thoroughly after handling. Do not contaminate food or water supplies. Follow the directions on the label.

DIRECTIONS FOR USE
It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

RESTRICTED USE PESTICIDE
Read all labeling, this product is a Restricted Use Pesticide.
Do not apply this product in a manner that will contact workers or other persons, either directly or through drift. Only registered handlers may be in the area during application.
Authority to register this product is with the State or Tribe, consult the agency responsible for pesticide regulation.

For USE ON TURFGRASS, LANDSCAPE BEDS, AND OUTDOOR NURSERY SITES, control of fire ants within outdoor nurseries, or your county for assistance for acceptable materials. Do not apply within 60 feet of estuarine bodies of water. Estuarine bodies of water are brackish, tidal water such as bays, mudflats, sandy beaches, salt marshes, and mangrove swamps.
Always wear protective clothing and use appropriate equipment during application and handling. Avoid contact with skin, eyes, and clothing. Wash thoroughly after handling. Do not contaminate food or water supplies. Follow the directions on the label.

For USDA APHIS Quarantine areas. Do not use on sod farms within the USDA APHIS Quarantine areas. Do not make more than one application per year of 0.0125 lbs active ingredient per acre. Consult your State or Federal plant protection inspector or your county’s extension agent to determine if the area to be treated is within the Quarantine.

CAUTION: Hazard to Humans and Domestic Animals
Hazard to humans through the skin. Causes eye irritation. Avoid contact with skin, eyes, or clothing. Wash thoroughly with soap and water after handling.

PERSONAL PROTECTIVE EQUIPMENT (PPE)
Applicants, mixers, loaders, and persons cleaning equipment application must wear long sleeved shirt and long pants, waterproof gloves, and plastic shoes. Follow manufacturer’s instructions for cleaning and maintaining PPE. If no such instructions for washables, use detergent and hot water. If not washables, use detergent and hot water. Keep and wash PPE separately from other laundry.

When handlers use closed systems or enclosed cab, it is necessary that the equipment meets the requirements listed in the Worker Protection Standard (WPS) (79 FR 41270, 83 FR 21450 or 40 CFR Part 170). The PPE requirements for pesticide use are as follows:
- Close systems shall be used and handlers must be provided with PPE specified above for applicators and other handlers, and have such PPE immediately available for use at an emergency, such as a spill or equipment breakdown. Follow manufacturer’s instructions for cleaning/maintaining PPE. If no such instructions for washables, use detergent and hot water. Keep and wash PPE separately from other laundry.

APPLICATION DIRECTIONS
Use for control of Imported Fire Ants. This product is to be used only on turfgrass with an application to outdoor nursery sites prior to the placement of containerized plants in the field. It is available for on field application and not for indoor use.
*Do not apply to field grown nursery stock.
*Do not apply to hard or impervious surfaces e. g. concrete, asphalt, highly compacted soil surfaces, paved floors, or wood surfaces.
*Do not apply to areas where white grubs are sold for food.

When treating for imported Fire Ants, the following steps will be controlled for a limited time:

STORAGE AND DISPOSAL
Do not contaminate water, food, or feed.
