

HALO 90

SURFACTANT/PENETRANT ANTI FOAM

HALO 90 is a low-foaming, non-ionic type spreader adjuvant. **HALO 90** provides quick wetting, more uniform distribution, and increases retention of spray by reducing surface tension of the spray droplets. **HALO 90** is a water soluble adjuvant that may also be used as an interfacial agent for wettable powders. Variations in conditions of use can cause some variation in the amount of **HALO 90** required. The minimum required to give a smooth, uniform coverage usually gives the most effective results.

Principal Functioning Agents:

Alkylphenol ethoxylate, alcohol ethoxylate and tall oil fatty acid 90%
 Constituents ineffective as spray adjuvant..... 10%
TOTAL 100%

Turf / Ornamental	1-4 pints / 100 gallons
Agricultural / Industrial	1-4 pints / 100 gallons
Herbicides	1-4 pints / 100 gallons
Insecticide / Fungicide / Fertilizer	1-4 pints / 100 gallons

Guaranteed by:
Residex, LLC

Net Weight: 21.0 lbs / 2.5 gallon

Net Contents: 2.5 Gallons

Caution: Keep out of Reach of Children
