Section 1: Identification

Product identifier

Product Name • Zoecon Wasp-X Wasp & Hornet Spray
Synonyms • 100503603; EPA Reg. No.: 2724-786
Product Description • White foam aerosol spray.

Relevant identified uses of the substance or mixture and uses advised against

Recommended use • Insecticide.
Restrictions on use • Keep out of the reach of children. Avoid contact with skin, eyes and clothing. Keep away from heat, sparks and flame. Use in well ventilated area.

Details of the supplier of the safety data sheet

Manufacturer • Wellmark International
1501 E. Woodfield Road, Suite 200W
Schaumburg, IL 60173
United States
www.zoecon.com

Emergency telephone number

Manufacturer • 1-800-248-7763
Manufacturer (Transportation) • 1-800-424-9300 - CHEMTREC
Manufacturer (Transportation) • 1-703-527-3887 - CHEMTREC - Outside North America - Collect Calls Accepted

Section 2: Hazard Identification

United States (US)
According to: OSHA 29 CFR 1910.1200 HCS

Classification of the substance or mixture

OSHA HCS 2012 • Aspiration 1
Flammable Aerosols 2
Eye Irritation 2A
Compressed Gas

Label elements

OSHA HCS 2012

DANGER
Hazard statements • May be fatal if swallowed and enters airways
Flammable aerosol
Contains gas under pressure; may explode if heated
Causes serious eye irritation

Precautionary statements
Prevention • Keep away from heat, sparks, open flames and/or hot surfaces. - No smoking.
Do not spray on an open flame or other ignition source.
Pressurized container: Do not pierce or burn, even after use.
Wash thoroughly after handling.
Wear eye protection/face protection.

Response • IF SWALLOWED: Immediately call a POISON CENTER or doctor/physician.
Do NOT induce vomiting.
IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses,
if present and easy to do. Continue rinsing.
If eye irritation persists: Get medical advice/attention.

Storage/Disposal • Dispose of content and/or container in accordance with local, regional, national, and/or
international regulations.
Store locked up.
Protect from sunlight. Do not expose to temperatures exceeding 50°C/122°F.
Protect from sunlight. Store in a well-ventilated place.

Other hazards
OSHA HCS 2012 • This product is extremely toxic to aquatic organisms, including fish and invertebrates.
This product is highly toxic to bees. Under United States Regulations (29 CFR 1910.1200 - Hazard Communication Standard), this product is considered hazardous.

Section 3 - Composition/Information on Ingredients

Substances

• Material does not meet the criteria of a substance according to United Nations
Globally Harmonized System of Classification and Labeling of Chemicals (GHS).

Section 4: First-Aid Measures

Description of first aid measures

Inhalation

• IF INHALED: If breathing is difficult, remove person to fresh air and keep at rest in a position comfortable for breathing. Call a POISON CENTER or doctor/physician if you feel unwell.

Skin

• IF ON SKIN: Wash with plenty of soap and water. If irritation develops and persists, get medical attention.

Eye

• IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Call a poison control center or doctor for treatment advice.

Ingestion

• IF SWALLOWED: Aspiration hazard - do NOT induce vomiting. Call a physician or poison control center immediately. Call a poison control center or doctor immediately for treatment advice.

Most important symptoms and effects, both acute and delayed

• Aspiration hazard, causes serious eye irritation. Refer to Section 11 - Toxicological Information.

Indication of any immediate medical attention and special treatment needed

Notes to Physician

• Treat symptomatically and supportively.

Section 5: Fire-Fighting Measures

Extinguishing media

Suitable Extinguishing Media

• SMALL FIRES: Dry chemical, CO2, water spray or foam.
  LARGE FIRE: Water spray, fog or foam.

Unsuitable Extinguishing Media

• Avoid heavy hose streams.

Firefighting Procedures

• Do not use direct stream of water. A direct stream of water may spread fire. Ventilate closed spaces before entering. Do not breathe gas/fumes/vapor/spray.

Special hazards arising from the substance or mixture

Unusual Fire and Explosion Hazards

• Containers may explode when heated. At temperatures above 130°F, container may rupture.

Hazardous Combustion Products

• Decomposes upon heating to produce toxic vapors/gases including carbon monoxide.

Advice for firefighters

• Wear positive pressure self-contained breathing apparatus (SCBA).

Section 6 - Accidental Release Measures

Personal precautions, protective equipment and emergency procedures

Personal Precautions

•
Approach leaking or punctured pressurized containers cautiously. Isolate leaking container from all sources of ignition. Avoid breathing fumes. Ventilate enclosed areas.

Emergency Procedures
- Avoid unnecessary personnel and equipment traffic in the spill area. Do not allow runoff into water, storm drains or drainage ditches. Use normal clean up procedures.

Environmental precautions
- Avoid run off to waterways and sewers.

Methods and material for containment and cleaning up
Containment/Clean-up Measures
- Keep away from fire, sparks and heated surfaces. SMALL SPILLS: Take up with sand or other non-combustible absorbent material and place into containers for later disposal. Use appropriate Personal Protective Equipment (PPE).

Section 7 - Handling and Storage

Precautions for safe handling
Handling
- Do not use or store near heat or open flame. Exposure to temperatures above 130°F may cause bursting. Do not smoke while using this product. Do not allow product to freeze. Contents under pressure, do not crush, puncture or incinerate. Avoid breathing fumes.

Conditions for safe storage, including any incompatibilities
Storage

Incompatible Materials or Ignition Sources
- Heat, sparks, open flame.

Section 8 - Exposure Controls/Personal Protection

Exposure Limits Supplemental
ACGIH
- Propane (74-98-6): TLV Basis - Critical Effects: (asphyxia (See Appendix F: Minimal Oxygen Content))
- Butane (106-97-8): TLV Basis - Critical Effects: (CNS impairment)
- Acetone (67-64-1): TLV Basis - Critical Effects: (CNS impairment; eye and upper respiratory tract irritation)

Exposure controls
Engineering

Measures/Controls

Personal Protective Equipment

Pictograms

Respiratory

- In case of insufficient ventilation, use NIOSH approved respiratory protection.

Eye/Face

- Wear safety goggles.

Hands

- Wear appropriate gloves.

Skin/Body

- It is recommended for handlers to wear appropriate clothing to prevent skin contact including long sleeves, long pants, socks and shoes.

Environmental Exposure

Controls

- Avoid contaminating waterways and sewers.

**General Properties**

| Boiling Point        | No data available | Melting Point/Freezing Point | No data available |
| Decomposition Temperature | No data available   | Heat of Decomposition       | No data available |
| pH                   | 6.0 (propellant-free concentrate) | Specific Gravity/Relative Density | 0.96 Water=1 (propellant-free concentrate) |
| Water Solubility     | Insoluble          | Viscosity                 | No data available     |

**Volatile**

| Vapor Pressure       | No data available | Vapor Density            | No data available |
| Evaporation Rate     | No data available | VOC (Wt.)                | 10.2 %           |
| VOC (Vol.)           | No data available |                         |                 |

**Flammability**

| Flash Point          | 14°C (57.2°F)(TCC) (propellant-free concentrate) | UEL                  | No data available |
| LEL                  | No data available | Heat of Combustion (ΔHc) | 9.02 kJ/g         |
| Flame Extension      | 14 in            | Flammability (solid, gas) | Flammable aerosol. |

**Environmental**

| Octanol/Water Partition coefficient | No data available |

---

**Section 10: Stability and Reactivity**

**Reactivity**

- Non-reactive under normal handling and storage conditions.

**Chemical stability**

- Stable under normal temperatures and pressures.
Possibility of hazardous reactions

- Hazardous polymerization will not occur.

Conditions to avoid

Incompatible materials

- Heat, strong acids, strong bases and oxidizing agents.

Hazardous decomposition products

- Decomposes upon heating to produce toxic gases which may include: nitrogen oxides, carbon oxides, sulfur oxides.

Potential Health Effects

Inhalation

Acute (Immediate)

- May affect the central nervous system. Symptoms may include dizziness or drowsiness.
Chronic (Delayed) • No data available

Skin
Acute (Immediate) • May cause irritation.
Chronic (Delayed) • Repeated exposure to etofenprox can cause skin irritation.

Eye
Acute (Immediate) • Causes serious eye irritation.
Chronic (Delayed) • No data available

Ingestion
Acute (Immediate) • Aspiration Hazard - may be fatal if swallowed and enters airways.
Chronic (Delayed) • No data available

Mutagenic Effects
• Etofenprox has been found negative for mutagenicity potential using the Ames test, chromosomal aberration and micronucleus test methods. Tetramethrin is not a mutagen. Piperonyl butoxide was not mutagenic in a battery of tests.

Carcinogenic Effects
• Etofenprox is not classified as carcinogen by NTP, IARC and OSHA. Piperonyl butoxide is not classified as carcinogen by NTP, IARC and OSHA. Tetramethrin is not listed as a carcinogen by IARC, NTP or OSHA.

Reproductive Effects
• Etofenprox did not produce teratogenic or reproductive effects in laboratory experiments. Piperonyl butoxide did not produce any birth defects or adverse effects on reproductive parameters in tests with rats and rabbits. Tetramethrin does not produce reproductive effects and is not a teratogen.

Section 12 - Ecological Information

Toxicity

| Components |
|---|---|

Persistence and degradability • No data available

Bioaccumulative potential • No data available
Mobility in Soil

- No data available

Other adverse effects

Potential Environmental Effects

- Extremely toxic to fish and aquatic invertebrates, toxic to bees.

Section 13 - Disposal Considerations

Waste treatment methods

Product waste

- Dispose of content and/or container in accordance with local, regional, national, and/or international regulations. Do not allow entry into storm drains, drainage ditches, gutters or surface waters.

Packaging waste

- Dispose of content and/or container in accordance with local, regional, national, and/or international regulations. Do not puncture or incinerate.

Section 15 - Regulatory Information

Safety, health and environmental regulations/legislation specific for the substance or mixture

SARA Hazard Classifications

- Acute, SARA Title III Section 313, Fire

FIFRA – Pesticide Labeling

This chemical is a pesticide product registered by the United States Environmental Protection Agency and is subject to certain labeling requirements under federal pesticide law. These requirements differ from the classification criteria and hazard information required for safety data sheets (SDS), and for workplace labels of non-pesticide chemicals. The hazard information required on the pesticide label is reproduced below. The pesticide label also includes other important information,
including directions for use.

CAUTION

KEEP OUT OF THE REACH OF CHILDREN.

Precautionary Statements

Hazard to Humans and Domestic Animals
Causes moderate eye irritation. Avoid contact with eyes or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using the toilet.

First Aid
IF IN EYES: • Hold eye open and rinse slowly and gently with water for 15-20 minutes. • Remove contact lenses, if present, after the first 5 minutes, then continue rinsing. • Call a poison control center or doctor for treatment advice. IF SWALLOWED • Immediately call a poison control center or doctor. • Do not induce vomiting unless told to do so by a poison control center or doctor. • Do not give any liquid to the person. • Do not give anything by mouth to an unconscious person. NOTE TO PHYSICIAN: Contains Petroleum Distillates – vomiting may cause aspiration pneumonia.

Environmental Hazards
This product is extremely toxic to aquatic organisms, including fish and invertebrates. Do not apply directly to or near water. Drift and runoff may be hazardous to fish in water adjacent to treated areas. Do not contaminate water when disposing of equipment/product. See Directions for Use for additional precautions and requirements. This product is highly toxic to bees exposed to direct treatment on blooming crops or weeds. Do not apply this product or allow it to drift to blooming crops or weeds while bees are actively visiting the area.

Physical or Chemical Hazards
Flammable. Contents under pressure. Keep away from heat, sparks and open flame. Do not puncture or incinerate. Exposure to temperatures above 130° F may cause bursting.
