

WindSurf™ Pro

Nonionic Surfactant

PRINCIPAL FUNCTIONING AGENTS

1,2,3-propanetriol, Polyethylene glycol mono(branched p-nonylphenyl) ether, and Sodium xylene sulfonate	90.0%
CONSTITUENTS INEFFECTIVE AS A SPRAY ADJUVANT	10.0%
TOTAL	100.0%

All ingredients in this product are exempt from the requirements of a tolerance as specified under Title 40 Code of Federal Regulations part 180

KEEP OUT OF REACH OF CHILDREN

WARNING

Causes eye and skin irritation

PRECAUTIONARY STATEMENTS

Read and follow all applicable precautionary statements on the accompanying tank mix partner label(s). Do not eat, drink or smoke when using this product. Take off contaminated clothing and wash it before reuse. Avoid release to the environment.

PERSONAL PROTECTIVE EQUIPMENT (PPE): Wear eye protection, face protection, protective gloves, and protective clothing.

FIRST AID

IF IN EYES: Rinse cautiously with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing. If eye irritation persists: Get medical advice.

IF ON SKIN: Take off contaminated clothing and wash it before reuse. Rinse skin with plenty of water for 15-20 minutes. If skin irritation occurs or if you feel unwell call poison control center or doctor for treatment advice.

IF SWALLOWED: Rinse mouth. Call a poison control center or doctor for treatment advice if you feel unwell. Do NOT induce vomiting unless told to do so by a medical professional.

IF INHALED: Remove person to fresh air and keep comfortable for breathing. Call a poison control center or doctor for treatment advice if you feel unwell.

In case of medical emergency, call toll free 1-877-424-7452

See booklet for additional PRECAUTIONARY STATEMENTS, COMPLETE DIRECTIONS FOR USE, STORAGE AND DISPOSAL and NOTICE OF WARRANTY.

GENERAL INFORMATION

WindSurf Pro is a general purpose, low foam nonionic surfactant for use on plants to maximize the effectiveness of pesticides. WindSurf Pro improves pesticide performance by increasing spray solution coverage and penetration of target leaf surfaces. It is designed for uniform droplet distribution and increased spray retention on leaf surfaces.

DIRECTIONS FOR USE
READ ENTIRE LABEL BEFORE USING
SHAKE WELL BEFORE USING
NOT FOR AQUATIC USE IN CALIFORNIA OF WASHINGTON STATE

WindSurf Pro was developed for use with all pesticides, fertilizers and other plant protectants. If the applicator does not have experience using this product, a phytotoxicity and jar test should be performed to confirm plant safety and tank mix compatibility with a specific spray mix. WindSurf Pro should generally be added last in the spray mix, unless buffering the spray solution is desired and then WindSurf Pro should be added first in the spray mix. Care must be taken in treating plant during periods when plants are subjected to drought stress, high temperature and high humidity. The pesticide manufacturer's label for specific usages and restrictions have precedence over DIRECTIONS FOR USE referred to on this label and so rates can be adjusted up or down as necessary.

Turf (Including but not limited to golf courses, commercial, residential, sports turf, sod farms, parks): ½ to 4 pints per 100 gallons of spray solution (0.0625 – 0.5% v/v).

Ornamentals (including but not limited to greenhouses, nursery, landscapes, transplanted crops): Special caution should be used when applying over ornamentals. Plant safety may be a concern and user should test appropriately to confirm acceptable safety. ½ to 4 pints per 100 gallons of spray solution (0.0625 – 0.5% v/v).

Industrial (including but not limited to vegetation management, roadsides, railroads, aquatics, range and pasture): ½ to 4 pints per 100 gallons of spray solution (0.0625 – 0.5% v/v).

Aquatics (where registered): ½ to 4 pints per 100 gallons of spray solution (0.0625 – 0.5% v/v).

Pest Control: ½ to 4 pints per 100 gallons of spray solution (0.0625 – 0.5% v/v).

Other Crops (including but not limited to herbs, vegetables, fruit, nuts, hops): ½ to 4 pints per 100 gallons of spray solution (0.0625 – 0.5% v/v).

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

Storage: Store in a secure, cool, and dry place away from children, food and feed products. Store in original container only. Keep container tightly closed when not in use. Do not use, store or spill near heat or open flames. Take care to prevent water from being introduced to the contents of the container. Recommended storage temperature is between 32°F and 120°F.

Disposal: Do not reuse product containers. Dispose of unused product in accordance with Federal, state and local regulations. Triple rinse (or equivalent) during mixing and loading. Recycling decontaminated containers is the best option of container disposal. The Agricultural Container Recycling Council (ACRC) operates the national recycling program. Contact your state and local ACRC recycler or visit the ACRC web page at www.acrecycle.org. Decontaminated containers may also be disposed of in a manner allowed by local, state and Federal laws and regulations.
