

## *Spray Tank Adjuvant*

**XP** represents the latest innovation in spray tank adjuvant technology. Capable of enhancing wetting, adhesion, and on-target product delivery. Extend the performance of all of your pest control applications with **XP**.

### **Directions for Use:**

**TANK MIX:** Fill tank with 1/2 amount of water. Add XP while maintaining agitation. Add desired inputs, then top off remaining volume of water for application.

**DILUTION RATIO:** Use a minimum dilution of 1:50 and a maximum dilution of 1:250 to achieve best results.

**APPLICATION:** Ensure thorough wetting of all surfaces for best results. may be used with most agricultural inputs unless the use of polymers is not recommended.

### **INGREDIENTS:**

4.5%.....Proprietary Polymer Blend  
95.5%.....Inert Ingredients

SAMPLE ONLY

PROFESSIONAL USE ONLY

Net Contents: 16 oz.

**Caution: Keep out of Reach of Children**

46495 Humboldt Drive | Novi, MI 48377-2446

#### **DIRECTIONS FOR USE:**

It is a violation of Federal Law to use this product in manner inconsistent with its labeling.

1. Fill spray tank half full with water.
2. Begin vigorous tank agitation
3. Add XP to tank and continue agitation until solution becomes mostly clear. A cloudy solution is indicative of hard water and may require more agitation.
4. Take caution to avoid spilling solution or breathing in fine mist.

Mixing ration should be from 1:250 - 1:50

1:250 ratio ex. (0.5 oz XP : 1 gal water) or (13 oz XP : 25 gal water) or (26 oz XP : 50 gal water)

1:50 ratio ex. (2.5 oz XP : 1 gal water) or (64 oz XP : 25 gal water) or (1 gal XP : 50 gal water)

XP is a polymer product that when mixed with other products, increases their effectiveness. When mixed with appropriate chemicals, XP increases adhesion, wetting uniformity, and on-target product coverage while decreasing drift and phytotoxicity potential. XP mixes with most chemistries with the exception of those whose label forbids mixing with polymers.

#### **PRECAUTIONARY STATEMENT:**

Harmful if swallowed or inhaled. May cause irritation to skin, eyes, and respiratory tract. Wear proper protective equipment when mixing and applying to avoid contact with skin, eyes, and respiratory tract. Wash hands thoroughly with soap and water after handling and before eating, drinking, and/or using tobacco.

#### **ENVIRONMENTAL HAZARD:**

This product is not characterized as a hazardous substance however care should be taken to not discharge into ponds, lakes, streams, estuaries, oceans, or other waterways. Contact local environmental protection agencies for guidance if needed.

#### **PHYSICAL OR CHEMICAL HAZARDS/ STORAGE:**

Do not mix with alkaline soaps, detergents, or oxidizers. Product dumping is prohibited. Store in original container and take great care to make inaccessible to children or those unfamiliar with this products proper use and precautions.

#### **FIRST AID:**

Poison Control can be reached by calling 1-800-222-1222 or on the internet at [www.poison.org](http://www.poison.org). Always have product label available when contacting Poison Control.

**IF ON SKIN OR CLOTHING:** Rinse from skin with plenty of water (15 min) and remove any contaminate clothing. Wash all clothing before reuse. Call a physician for guidance.

**IF SWALLOWED:** Call poison control center or your doctor immediately. Do not induce vomiting unless recommended by physician.

**IF INHALED:** Move to fresh air. If person is no longer breathing, call 911. Residex makes no warranties expressed or implied and hereby disclaims all such warranties as to any matter including, w/o limitation: compatibility of XP with adjuvants, additives, etc. Residex shall not be liable for any direct, consequential, or other damages suffered by user or any third parties resulting from the use of XP on its own or as a mixture with other products.
