Product Code:
IMML012: 12 individually wrapped lures

Rubber Septa Lure Impregnated With Pheromones

Perfect for use in storage warehouses and retail stores for monitoring and trapping moths.

Attracts Plodia, Ephestia, Indian Meal, Tobacco, Almond, Mediterranean Flour and Raisin Moths

Effective for at least 6 weeks.

Non-Toxic, Non-Pesticidal Lure

May Be Applied to Glueboards of Any Shape or Size

Folded, flat or hanging, or on a shelf or counter.

May Be Reapplied to a New Glueboard

Should the first glueboard become full of moths during the effective period of the lure.

Lure Can Be Placed On the Glueboard in the D-Sect IPM Station

For discreet, protected monitoring or trapping.

Green Zone™ Product

Suitable for green service programs.
